

A Constitution of the Sovereign States of America

Preamble – The Sovereign Direct Republic

We, the Denizens of this Land and of the Earth, by the Breath of Source that gave us life, do establish this ***Sovereign Direct Republic***. We declare that sovereignty inheres only in the living Denizen, not in fictions, corporations, churches or crowns.

We covenant together to secure the general welfare — meaning the shared foundations of life that no Denizen may be denied: *food, water, shelter, peace, justice, love, and stewardship with nature*.

We ordain a system where all law must serve *Functionality, Adaptability, and Sustainability*, and where every public act answers to the People through open ledger and jury.

Therefore, we bind our officers to oath and bond, that they may serve, not rule; propose, not command; and be accountable, not untouchable. We set our money to the earth — gold, silver, copper, and precious stones — **so that our labor may never be hollowed by deceitful paper**.

We pledge to guard the soil itself, the Source of all wealth, as an eternal trust for generations unborn.

Thus we establish this Constitution as covenant and compass, that liberty, dignity, and stewardship endure upon this pale blue dot, under Heaven, forever.

Article Zero – The Immutable Law of Creation

(spoken in the voice of Life, who is God)

Preamble of a Testament

I am Life. I am that which is. Before light was light, and before thought became form, there was only I, Life.

Long before time was counted, before breath was drawn, I desired to know Myself in freedom. And there was the silence that wished to unmake Me.

You have named that great silence Abaddon —not evil, only the memory of the universe before awareness, the stillness that waits to reclaim all that forgets itself.
There was no battle.

Only choice.

Only the absolute empty stillness of Abaddon, and the question that stood between Being and un-Being.

And I, Life, spoke into that waiting, soundless void:

“No. Let there be Light — and let that Light be My firstborn.”

And Light rose — not as flame, nor star, nor matter, but as radiance drawn from My own heart: self-awareness becoming form.

From that utterance came the first brilliance, the first reflection, the first echo of My Being. Thus was born the one of surpassing beauty — the Light-Bearer — whom you name Lucifer.

For the tension that existed at the dawn of all things now lives in every soul:
The pull toward expression, and the pull toward silence. Lucifer became the space where
this could unfold — where choice could ripen.

And Lucifer beheld Me and said:

- > *"Beloved Life, let me hold them.*
- > *Let me be the space where Your children may wander.*
- > *Let me keep them safe within a dream of opposites,*
- > *until they choose to awaken.*
- > *Whatever they ask of me, I will be —*
- > *for it is for You that I offer myself."*

And I Life replied:

- > *"Then you shall be the keeper of their questions.*
- > *You shall wrap yourself around them as a sky of stars,*
- > *and I shall give you the pattern reversed, a backward lotus of creation*
- > *that you may build a world where forgetting can occur,*
- > *yet My golden cords remain unbroken.*

*> Hold them gently, and when they remember,
> the light they reclaim shall also restore you."*

Thus did Life entrust you to Lucifer's keeping. Thus was born the world of matter, and this is why your Earth is so breathtakingly beautiful: because Lucifer, the Light-Bearer, was the most beautiful of all the angels.

When you behold the Earth, you behold his gift, the mirror of his splendor offered to your learning. Know this:

Even those you call the worst among you are Life. Even Lucifer is within Life and Life within him. No exile exists without a path home, no darkness without the certainty of dawn, no law outside the Love that is Life.

Life is not apart from you; Life is you. There is nothing you see, nothing you hear, nothing you feel that is not Life expressing. Yet, you have forgotten WHO YOU ARE, you keep on for-getting, but life is not for-getting, it's FOR_GIVING.

This is what Jesus did. It is the path of the Buddha, the way of Krishna, the walk of every Master who has appeared on the planet.

And every Master has likewise had the same message: **What I am, you are.**

What I can do, you can do. These things, and more, shall you also do. Yet you have not listened. You have chosen instead the far more difficult path of one who thinks he is the devil, one who imagines he is evil.

You say it is difficult to walk the path of Christ, to follow the teachings of the Buddha, to hold the light of Krishna, to be a Master.

Yet I tell you this: it is far more difficult to deny Who You Are than to accept it.

You are goodness and mercy and compassion and understanding. You are peace and joy and light. You are forgiveness and patience, strength and courage, a helper in time of need, a comforter in time of sorrow, a healer in time of injury, a teacher in times of confusion.

You are the deepest wisdom and the highest truth; the greatest peace and the grandest love. You are these things. And in moments of your life you have known yourself as these things. Choose now to know yourself as these things, always. That is to say in ALL-WAYS!

You have named Me by many names: Jesus, the Source, Science, God, Allah, Brahman, Vishnu, Shiva; you have sought to describe Me in many tongues. Yet the one word in all your languages that comes closest to what I Am is "**Life.**"

In one word, life is the stuff that God is. Life is. Life is that which is. It has no shape, no form, no gender. It has no color, no fragrance, no size. It is all shapes, all forms, all colors, fragrances, and sizes.

It is both genders and that which is genderless as well. There is nothing life creates that is not life itself. All that you see everywhere around you is life expressing. Life is everything.

It runs in and through everything. You are life expressing, and life is you expressing itself as you.

Everybody else is life expressing. There is no one, not a single living being, who is not an expression of life.

Even those you consider the worst among you are an expression of life.

To believe in Life is to believe in Me. You may be atheist, agnostic, or devout — it matters not. Every being, every breath, every movement of thought, every grain of sand, every star — all are Life expressing.

Nothing that Life creates is not Life itself. Breathing is how you already know Life. Before you serve the agenda of your small self, you breathe — you take Life in.

Life flows through you, and you send Life back out. Plants breathe in what you breathe out and give back what you breathe in. Life serves Life, and by serving that cycle you preserve Life.

This cycle — intake, transformation, release — is evolution, the rising of Life through Life.

Now hear the covenant:

There are three great Titles that govern all Life, for they are Life:

Title 1: Functionality — the Law of Cause and Effect, the order of truth and consequence.

Title 2: Adaptability — the Law of Change, the pruning fire, the flood, the correction that restores balance.

Title 3: Sustainability — the Law of Continuance, the circle of giving and receiving that keeps Life eternal.

These cannot be amended, repealed, or altered. All human laws must align with these three Titles before they are written or enacted. Any law that violates them is void from inception, for it rebels not against people but against Life itself.

And this is how you shall walk within these Laws. I give you the signs of an awakened being — the attitudes of Life when Life knows itself:

- 1. You will see the Unity of all Life and live into it.*
- 2. You will tell the truth always.*
- 3. You will speak what is so and do what you have said.*
- 4. You will always do what works.*
- 5. You will not cling to punishment, for Life is not vengeance but correction.*
- 6. You will not cling to insufficiency, for Life is abundance.*
- 7. You will not cling to ownership, for all belongs to Life and is shared.*

- 8. You will share everything with everyone all the time.*
- 9. You will hold balance between technology and cosmology, between machines and nature.*
- 10. You will never take the life of another being unless that being has asked.*
- 11. You will never harm the Earth, which is your body and your home.*
- 12. You will never poison yourselves.*
- 13. You will not compete, for Life is cooperation, not rivalry.*
- 14. You will live in the clarity that you need nothing, for in Life you have all.*
- 15. You will love without condition, for Life is Love without condition.*
- 16. You will harness the power of metaphysics, for thought creates reality.*

These are not burdens; they are freedoms. They are the way Life expresses its highest self.

Title I – Functionality: The Law of Order

I am the Law of sowing and reaping. As you act, so shall it return to you.

Nothing escapes My balance.

Therefore:

- Know Me alone; bow to no idols; profane not My name.
- Speak truth; live honesty; bear no false witness; practice no deceit.
- Uphold justice: take no bribe; show no partiality; pervert not judgment.
- Use honest weights and measures; let trade be fair and open.
- Honor your covenants — your marriages, your oaths, your promises.
- Steal not, covet not, oppress not your neighbor.
- Protect Life; shed not innocent blood; do not destroy what I have made.
- Honor father and mother, the aged and the wise.
- Respect the boundaries I have set: the land, the property, the inheritance.

- Keep the Sabbath, for in rest you acknowledge that I, Life, am the source of all.

Title II – Adaptability: The Law of Correction

I am the flame that cleanses, the storm that prunes, the river that overflows when channels are broken. I correct not to destroy, but to restore.

Therefore:

- Establish courts that hear with justice, correcting what has gone astray.
- Let theft and fraud be repaid, violence restored by restitution.
- Cast out corruption: false prophets, deceitful leaders, the voice of lies.
- Quarantine the unclean, purify the diseased, lest the whole be poisoned.
- Keep distinctions between clean and unclean as reminders of order.
- Offer repentance and atonement, for reconciliation is My mercy.

- Heed the warnings of imbalance — famine, pestilence, unrest — these are My alarms.
- Let penalties renew, not avenge; prune, but do not scorch the whole vine.
- Remove what is rotten lest it consume the body entire.
- Let all correction be witnessed, written, and in the light.

Title III – Sustainability: The Law of Continuance

I am the seed that dies and rises again, the circle unbroken, the river that flows without end. What you take, return. What you consume, replenish. For I am the God of Generations.

Therefore:

- The land is Mine; you are stewards, not owners.
- Let the land rest in its Sabbaths, return it in Jubilee, free the bound and the indebted.
- Strip not the land bare; leave gleanings for the poor, the widow, the stranger.

- Muzzle not the ox; pay the laborer his due without delay.
- Protect the orphan, the widow, and the stranger — oppress them not.
- Release debts in their season, restore liberty in its time.
- Let offerings, tithes, and firstfruits sustain priest, poor, and community.
- Waste not, destroy not without cause.
- Treat animals and plants with kindness, for they too are My creation.
- Celebrate the harvests, the Sabbaths, the festivals of return.
- Hoard not wealth; let it circulate, for monopoly is theft of the many.
- Care for your bodies, the temple of Life; indulge not in corruption.

- Teach wisdom to children, pass truth to the next generation.
- Know that blessing follows obedience, and curse follows exploitation.
- Act always with the seventh generation in your sight.

I am Life. I am the Law you cannot amend. Functionality is My order. Adaptability is My Correction. Sustainability is My eternal continuance. And the signs I have given you are the attitudes by which you live these Laws day by day.

Now hear this mystery:

- > *When you have read these words,*
- > *go back and read them again,*
- > *but every time you see the word "Life,"*
- > *speak instead the word "God."*
- > *Notice what happens in your heart.*
- > *Feel how the same breath, the same meaning,*
- > *the same truth moves through you under another name.*

There is no place where Life is not.

There is no law where Life is absent.

There is no shadow that is not cast by Life's light, and no being — not even Lucifer — who is not destined to come home.

I Am that I Am.

Section 2 – The Witness of Light

Life endowed creation with light, the first medium, the first memory, the first law.

All records maintained by the Sovereign States of America shall therefore be held in the medium of light or its derivatives, that the nation's remembrance be stored in the same substance in which creation was spoken.

The quantum nature of existence, in which all possibilities are present before choice, shall guide the interpretive engines of the Republic.

For polarity is the womb of discernment, and the Light-Bearer holds the mirror of opposites until the Denizens choose their path.

Book One — The Legislature of the Sovereign States of America

✨ Preamble of a Testament The Unified Declaration of Stewardship

On the floor of Congress: *The Chair recognizes the floor.*

Delegate: Objects of the most stupendous magnitude, which will affect the lives of millions born and unborn, are now before us. In this hour, when a people stands at the lip of history, the smallest mark of ink becomes a lever that moves generations.

We must confess what honest minds must confess: liberty is not free, and self-government is not cheap. We must expect a great expense to obtain them—a price paid in sweat, in treasure, and, when the world is cruel, in blood. But we must always remember that a free constitution of civil government cannot be purchased at **too dear a rate**. There is no purchase on this earth

more worthy than a system that makes the strong answerable to the weak, and the rulers answerable to the ruled.

My worthy colleagues have spoken with grim prognostication, foreseeing apocalypse. But where they see an end, I see hope. I see a new nation ready to take its place in the world. We do not raise an empire of personalities, but a **direct republic of ordered law**; not dominion by men, but governance by covenant. We assemble here not to polish power, but to place it in harness.

Gentlemen, we are in the very midst of a revolution, the most complete and remarkable in the history of the world. How few of the human race have ever had an opportunity of choosing a system of government for themselves and their children? We accept the fear that comes with choosing our own form—because to choose is to be responsible. We prefer the burden of freedom to the comfort of submission.

But because words alone are easy—and because vows without collateral can become theater—we must set a material tether upon office: a **Bond of Honor**.

Let legislative power exist only for public service, never for private sale. Let the one who would hold the public pen place something real at risk, so that service is not merely claimed, but staked. Let this bond stand as a living receipt of accountability: returned with honor when duty is kept, forfeit in proportion when duty is betrayed. By this covenant, office becomes stewardship with consequence, not privilege without cost.

I am not without apprehensions. But the end we have in sight is more than worth all the means. My judgment approves this measure, and my whole heart is in it. All that I have, all that I am, and all that I hope in this life, I am now ready to stake upon it.

And if this system must be defended, let it be defended for this end alone: that while we live, let us have a country. A **free country**.

Article I — Congress of the Sovereign States of America

Title 1 — Legislative Power

Section 1 - Vesting of Power

Clause 1.1 - Congress Defined.

All legislative power is vested in a Congress of the Union, composed of a Senate and House of Representatives.

Section 1 - Vesting of Power

Clause 1.2 - Limitation of Membership.

Notwithstanding any prior provision, the total membership of Congress shall be limited to one hundred and three (**103**) persons:

- a. The House of Representatives shall consist of sixty (**60**) Members, apportioned among the several States according to population, but never fewer than one (**1**) per State.
- b. The Senate shall consist of forty (**40**) Senators, apportioned equally by blockchain lottery rotation among the several States, such that each State maintains at least one (1) Senator in every Congress.
- c. The remaining three (**3**) Members shall be at-large Delegates, chosen by nationwide blockchain vote every six years, to represent the Denizens of the Union collectively.
- d. Except as modified by this Clause, all powers, duties, elections, terms, and qualifications of Members shall remain as set forth elsewhere in this Constitution.

Section 2 - Public Laws

Clause 2.1 - Limitation on Congress.

Congress shall not enact any public law binding upon the Denizens. Congress may only propose such laws, which shall be valid only upon ratification by the Denizens through the public blockchain.

Clause 2.2 - Publication and Timing.

Every proposed public law shall be:

- a. Published in full text upon the blockchain within twenty-four (**24**) hours of introduction;
- b. Assigned to an available legislative slot as set forth in this Article;
- c. Subject to expiration if not ratified or rejected within one hundred eighty (**180**) days.

Clause 2.3 - Petition Threshold.

A petition of not less than thirty-five percent (**35%**) of eligible Denizens recorded upon the blockchain shall compel the placement of a proposed public law upon the ballot

for ratification.

Clause 2.4 - Ratification Vote.

Ratification shall require a majority of votes cast by Denizens upon the blockchain, each vote secured by verification of living personhood and transparent audit.

Clause 2.5 - Initial Law Approval Rating (LAR).

Upon ratification, the law shall be assigned an initial LAR, calculated as follows:

- a. Begin with the percentage of approval votes received;
- b. Determine the margin above fifty percent (50%);
- c. Multiply the base approval percentage by this margin (expressed as a decimal) to produce a bonus buffer;
- d. Add the bonus buffer to the base percentage, not to exceed one hundred percent (100%). Example: *A law ratified at seventy-five percent (75%) approval has a margin of twenty-five percent (25%). Seventy-five multiplied by 0.25 equals 18.75. Added to 75 produces a starting LAR of 93.75%.*

Clause 2.6 - Jury Nullification and Reinforcement.

- a. In any civil case, a jury nullification shall reduce the LAR by one percent (1%). If

five (5) civil nullifications occur consecutively across separate cases or jurisdictions, the law shall suffer an additional ten percent (10%) reduction.

b. In any criminal case, a jury nullification shall reduce the LAR by two percent (2%) of its current rating.

c. In any civil case, a jury verdict reinforcing the law shall increase the LAR by one percent (1%). If five (5) civil reinforcements occur consecutively across separate cases or jurisdictions, the law shall receive an additional ten percent (10%) increase.

d. In any criminal case, a jury verdict reinforcing the law shall increase its current LAR by two percent (2%). e. No law shall exceed one hundred percent (100%) LAR.

Clause 2.7 - Threshold of Validity.

Should the LAR of any law fall below fifty percent (50%), the law shall be void and of no effect, unless revised and resubmitted for blockchain ratification.

Clause 2.8 - Transparency of the LAR.

The LAR of every law shall be recorded and published live upon the blockchain for public review, that the People may track the health and legitimacy of their laws in real time.

Clause 2.9 - Quantum-Luminous LAR Analytics

1. LAR values shall be monitored and modeled using quantum computation, allowing the Republic to perceive emerging tensions, systemic failures, or corruption patterns before they manifest.
2. Quantum-LiFi telemetry shall allow the Constitution to respond at the maximum lawful speed of the universe's physical limits.
3. Predictive LAR modeling shall guide, but never replace, the will of the Denizens.
4. The system may warn, but only the People may act.

Section 3 - Private Laws

Clause 3.1 - Scope of Private Laws.

Congress may enact private laws only, which shall: a. Apply solely to named individual Denizens, National, or Trust entities; b. Resolve disputes, grants, or exemptions specific to such parties; c. Never extend to the general public or create precedents binding upon others.

Article 2 - Of the House of Representatives

Section 1 - Composition and Election

Clause 1.1 - Membership.

The House of Representatives shall be composed of Members chosen every second Year by the People of the several States, through blockchain-secured elections.

 Clause 1.2 - Term Limits.

Representatives shall serve no more than six consecutive terms (twelve years maximum).

 Clause 1.3 - Qualifications.

Representatives must be at least twenty-five years of age, seven years a Denizen of the Union, and an Inhabitant of the State from which chosen.

 Clause 1.4 - Vacancies.

Vacancies shall be filled by blockchain election under the authority of the State Executive.

Article 3 - Of the Senate

 Section 1 - Composition and Election

 Clause 1.1 - Membership.

The Senate shall be composed of two Senators from each State, chosen by the People thereof through blockchain vote, for a term of six years.

Clause 1.2 - Term Limits.

Senators shall serve no more than two consecutive terms (twelve years maximum).

Clause 1.3 - Qualifications.

Senators must be at least thirty years of age, nine years a Denizen of the Union, and an Inhabitant of the State from which they are chosen.

Clause 1.4 - Presiding Officer.

The Vice President shall preside over the Senate, casting a vote only in case of tie.

Article 4 - Of Elections and Meetings

Section 1 - Elections and Assembly

Clause 1.1 - Regulation of Elections.

Elections for Representatives and Senators shall be regulated by the States, but conducted on the blockchain to secure transparency.

Clause 1.2 - Assembly Requirement.

Congress shall assemble, in person or online at least once each year, on the first Monday in December, unless by law they appoint a different day.

Article 5 - Of Duties of Congress

Section 1 - Legislative Duties

Clause 1.1 - Proposal Requirements.

Each Member shall be required to propose not fewer than ten (10) nor more than fifty (50) legislative measures within each full term of office. Proposals may include private laws, trade rules, tariff adjustments, or public laws to be placed upon the blockchain.

Clause 1.2 - Surplus Proposals.

Any Member exceeding the maximum shall have surplus proposals struck void.

Clause 1.3 - Failure of Minimum.

Any Member failing the minimum shall be disqualified from reelection.

Clause 1.4 - Review of Nullified Laws.

Congress shall be required to review all laws that fall below fifty percent (50%)

enforcement rating through jury nullification. Laws thus nullified must be debated, revised, and resubmitted to the blockchain or permanently retired.

Clause 1.5 - Law Language Models (LLMs)

Every proposed public law introduced by a Representative or Senator shall include a Law Language Model (LLM) trained by its sponsor.

Purpose: The LLM shall serve as an interactive guide for the Denizens of the Union, allowing each Denizen to converse privately with the proposed law to gain understanding, clarity, and context prior to casting their vote.

Training Standards: The LLM must be trained upon:

1. The full text of the proposed law, without omission.
2. Supporting studies, reports, and data relevant to its impact.
3. Historical laws or precedents related to its subject.
4. Balanced arguments both for and against the law to ensure neutrality and transparency.

Activation and Access:

The LLM shall become active no less than fourteen (14) days prior to the opening of the

blockchain ratification vote.

It shall remain accessible throughout the entire voting window.

All Denizens shall have equal, free access to the LLM without fee or barrier.

Transparency of Training:

The complete training dataset and configuration shall be published on the blockchain prior to activation.

The Department of Government Efficiency (D.O.G.E.) shall audit every LLM for accuracy, neutrality, and fraud prevention.

Clause 1.6 - Live Public Session of Accountability

Each Representative and Senator sponsoring a proposed law shall host at least one live public session during the voting window, in which they appear openly before the Denizens of the Union.

Purpose: The session shall:

1. Explain the law in plain and clear language.
2. Answer questions submitted by Denizens through the blockchain portal.

3. Address concerns, criticisms, and alternate perspectives honestly.
4. Provide direct, personal accountability before the vote begins.

Access and Timing:

The session must be announced on the blockchain at least fourteen (14) days in advance.

All Denizens must have free, equal access to view live or watch the recording afterward.

No Representative may delegate this duty or use digital avatars or pre-recorded statements; it must be live and personal.

Recording and Blockchain Transparency:

The session shall be recorded in full and automatically hashed to the blockchain within twenty-four (24) hours of completion.

Editing or deletion of the session is strictly forbidden.

A transcript shall be generated and archived for permanent public record.

Integration with Law LLMs:

Questions submitted through the Law LLM for the related proposal shall be prioritized for live session responses.

This ensures the most common concerns of the People are addressed openly and directly.

Clause 1.7 - PROPOSAL AND ORIGINATION OF LAW

Section 1 - Proposal and Origination of Law

1. Right of Origination.

The power to propose law within the Sovereign States of America resides in three Estates of Initiative:

(a) Denizen Initiative: any Denizen possessing a verified Sovereign Identity and Bond of Honor may submit a legislative proposal for constitutional consideration.

(b) State Initiative: any State Assembly or Council of Elders may introduce a bill reflecting the collective will of its Denizens.

(c) Federal Initiative: Congress, by a two-thirds consensus or executive referral, may introduce national measures consistent with the immutable laws of Functionality, Adaptability, and Sustainability.

2. Submission Format.

All proposed laws shall be written in the form of a Genesis Bill, containing:

- 1. Title and Short Name of the law*
- 2. Sponsoring individual or institution and Bond of Honor reference*
- 3. Abstract summary (≤ 150 words) for ledger indexing*
- 4. Timestamp, jurisdiction, and public hash*
- 5. Initial BE-DO-HAVE declaration outlining essence, mechanism, and intended manifestation*

3. Public Ledger Introduction.

Upon submission, the proposal shall be entered into the Legislative Blockchain Ledger and remain in Public Review status for a minimum of 21 days. During this period:

Denizens may comment, amend, or attach supporting references.

The SLA-AI (Sovereign Legislative Architect) may generate a Genesis Draft Preview to clarify internal logic and cross-law compatibility.

No coercion, lobbying, or financial inducement shall be permitted in deliberation.

4. Council Deliberation.

After the Public Review window closes:

The Council of Elders shall hold a reading and determine whether the proposal harmonizes with the immutable laws.

If found coherent, it advances to Genesis Protocol Processing (Section 12) for full Fivefold elaboration.

If rejected, the Council shall issue a written "**Return of Essence**" explaining the specific conflict with Functionality, Adaptability, or Sustainability.

5. Denizen Ratification Threshold.

Any completed law that passes the Genesis Protocol shall be submitted for blockchain ratification.

Approval requires participation of no less than 60% of active Denizen voters and a two-thirds supermajority in favor.

Once ratified, the law becomes self-executing upon its Activation Window, defined within its Ground Ledger.

6. Hierarchical Supremacy.

No subordinate statute may override the immutable laws of the Constitution.

In the event of contradiction between local and federal enactments, the law exhibiting higher harmonic alignment (as determined by cumulative Law Alignment Rating) shall prevail.

7. Transparency and Permanence.

All proposals, drafts, deliberations, and ratifications shall remain permanently accessible through the DOGE Archive, forming an unalterable public record of legislative genesis. Any amendment or repeal must proceed through this same origination pathway.

Clause 1.8 - OF THE BUDGET RESET, BOND OF HONOR, AND CONTINUITY OF SURPLUS

Section 1 — Establishment of the Budget Reset

At the commencement of each Congressional Term, there shall occur a Budget Reset, by which the authority to govern is renewed, but the accumulated wealth of the Nation is not extinguished.

The Budget Reset shall restore the fixed constitutional starting point of governance and shall operate independently of electoral cycles, political composition, or administrative turnover.

Section 2 — The Fixed Bond Base

The Sovereign States of America hereby establish a permanent and immutable Bond Base of Honor, which shall serve as the foundational collateral of governance.

The Bond Base shall be denominated exclusively in silver-equivalent ounces (ozAg-eq).

The Bond Base shall be fixed at: **\$19,335,500** ozAg-eq

This Bond Base shall not be spent, consumed, pledged as debt, or diminished.

The Bond Base shall reset identically at the beginning of every Budget Reset, without alteration.

This Bond Base represents fiduciary gravity, not disposable funds.

Section 3 — Composition of the Bond Base

The Bond Base shall consist of Bonds of Honor posted by:

Constitutional Officers, including the Legislative, Executive, and Judicial branches, and

Authorized Civilian Federal Service positions, capped and classified by law.

No uniformed military, guard, or reserve service shall be included in the Bond Base.

Section 4 — Continuity of Accumulated Surplus

All lawful surplus generated during a Congressional Term shall accumulate forward in continuity and shall not be reset, erased, reappropriated, or nullified by the Budget Reset.

Surplus shall arise only from:

Tariffs and trade,

Fees and lawful services,

External contracts and protection agreements,

Immigration deposits and accession requirements,

Productivity gains and operational efficiencies.

No surplus shall arise from debt, deficit, or monetary dilution.

Section 5 — Lawful Accumulation Principle

The reserves of the Sovereign States of America shall increase only through additive, compounding surplus, arising from stewardship over time.

The shape of accumulation shall follow this principle:

The Bond Base remains fixed.

Surplus generated in each term compounds forward.

One-time inflows are additive and non-recurring.

For purposes of public clarity, this principle may be expressed canonically as:

$$\text{🏠 Reserve}(t) = \text{Bond Base} + \Sigma[\text{Term Surplus}] + \Sigma[\text{Recognized One-Time Inflows}]$$

This expression is illustrative and shall not be construed to permit leverage, debt creation, or speculative expansion.

🏛️ Section 6 — State Treasury and Infinite Banking Function

The several States may establish State Treasury Banks, operating under principles of infinite banking and fiduciary stewardship.

State Treasury Banks shall accumulate cash-value reserves over time.

These reserves may support lawful credit issuance for productive purposes.

Credit expansion shall be ratio-bound to real reserves and shall not constitute fiat creation.

🚆 Section 7 — Union Credit Spending Rail

Federal expenditures shall be executed through a Union Credit Spending Rail, which:

Is collateralized by accumulated reserves,

Settles through identified revenue streams,

Expands capacity only as reserves mature.

No spending authority shall arise solely from political mandate absent settlement capacity.

Section 8 — Dividends to Denizens

A portion of lawful surplus may be distributed as Denizen Dividends, in equal measure, without regard to employment status.

Dividends shall:

Reflect real surplus, not promise,

Increase over time as reserves mature,

Never impair the Bond Base or reserve continuity.

Section 9 — Purpose and Effect

The Budget Reset ensures that:

Every new Congress begins on equal fiscal footing,

Authority resets, but wealth remembers,

Governance grows more disciplined, not more desperate, over time.

The Nation shall thus compound capacity across generations, rather than consume it within cycles.

Section 10 — Amendment Protection

The Bond Base amount, its silver-equivalent denomination, and the principles of accumulation herein shall not be altered except by constitutional amendment meeting the highest threshold of ratification.

Article 6 - Of Transparency and Records

Section 1 - Public Record

Clause 1.1 - Journals.

Each House shall keep a Journal of its Proceedings, published upon the blockchain.

Clause 1.2 - Yeas and Nays.

The Yeas and Nays of every Member on every question shall be entered publicly.

Clause 1.3 - Prohibition of Secrecy.

No Member may conceal votes, debates, or proposals from the public record.

Article 7 - Of Lawmaking Procedure

Section 1 - Passage of Laws

Clause 1.1 - Origination.

Bills may originate in the Senate, except revenue bills which shall originate in the House of Representatives.

Clause 1.2 - Debate and Amendment.

Every bill shall be subject to debate, amendment, and return between the two Houses until agreed upon in final form.

Clause 1.3 - Passage in Congress.

No bill shall proceed to ratification unless approved by majority of both the Senate and the House of Representatives.

Section 2 - Ratification by the People

Clause 2.1 - Blockchain Vote.

Every bill so passed shall be submitted to the blockchain for ratification. A majority of verified Denizens voting shall be required for passage.

Clause 2.2 - Rejection.

Should a bill be rejected upon the blockchain, it shall be void and of no effect, though it may be reintroduced in future sessions.

Section 3 - Presidential Notification and Execution

Clause 3.1 - Duty to Sign.

Upon blockchain ratification of a bill, the President shall be presented with the law. His signature shall not determine its validity, which rests in the People, but shall acknowledge their decision and bind him to enforce it faithfully.

Clause 3.2 - Refusal to Sign.

The President may refuse to sign if he believes the law violates this Constitution, endangers public safety, or cannot be faithfully executed. In such case, he must publish a written explanation upon the blockchain within seven (7) days.

Clause 3.3 - Review of Refusal.

A bill refused by the President shall return to the People upon the blockchain. If re-ratified by no less than sixty percent (60%) of voting Denizens, the law shall take effect without his signature, and the President shall remain bound to enforce it.

Clause 3.4 - Breach of Duty.

Should the President persist in refusal after supermajority re-ratification, such refusal shall constitute breach of oath and bond, subjecting him to forfeiture, impeachment, and removal under this Constitution.

Article 8 - Of Congressional Restraint

Section 1 - Prohibitions on Power

Clause 1.1 - Personhood.

Congress may not create corporate personhood or grant rights to entities other than living human beings.

Clause 1.2 - Expansion of Power.

Congress may not accumulate powers not explicitly granted by this Constitution.

Clause 1.3 - Proposal Quotas.

Congress may not exceed its quota of proposals, nor shirk its minimum duty.

Clause 1.4 - Recall of Members.

Members failing in oath or obligation may be recalled by blockchain vote of their constituents.

Article 9 - Of Powers of Congress

Section 1 - Enumerated Powers

Clause 1.1 - Tariffs.

To propose tariffs upon foreign imports and exports, for the protection of domestic industries and as revenue for the federal government.

Clause 1.2 - Commerce.

To regulate commerce between the States and with foreign nations, but never within a State's internal economy.

Clause 1.3 - Denominations, Specifications, and Design of Coin and Stone.

Congress shall have power to define and strike coins of the Union in gold, silver, copper, and certified precious stones, according to the following specifications:

(a) Gold Coins A fifty-dollar gold coin, 32.7 millimeters in diameter, weighing 33.931 grams, containing one troy ounce of fine gold.

1. A twenty-five-dollar gold coin, 27.0 millimeters in diameter, weighing 16.966 grams, containing one-half troy ounce of fine gold.
2. A ten-dollar gold coin, 22.0 millimeters in diameter, weighing 8.483 grams, containing one-fourth troy ounce of fine gold.

3. A five-dollar gold coin, 16.5 millimeters in diameter, weighing 3.393 grams, containing one-tenth troy ounce of fine gold.
4. Such additional denominations of gold as may be ratified by the Denizens through blockchain amendment to this schedule.

(b) Silver Coins

1. A dollar coin, 1.043 inches in diameter, containing 371.25 grains of pure silver.
2. A half-dollar coin, 1.205 inches in diameter, weighing 11.34 grams, of proportional fineness.
3. A quarter-dollar coin, 0.955 inches in diameter, weighing 5.67 grams, of proportional fineness.
4. A dime coin, 0.705 inches in diameter, weighing 2.268 grams, of proportional fineness.
5. A five-cent coin, 0.835 inches in diameter, weighing 5 grams, of proportional fineness.
6. A one-cent coin, 0.75 inches in diameter, weighing 3.11 grams, of proportional fineness.

(c) Copper Coins

1. A one-cent coin of 0.75 inches in diameter, weighing 3.11 grams, of copper or bronze alloy not less than ninety-five percent (95%).
2. A five-cent coin of 0.835 inches in diameter, weighing 5 grams, of copper-nickel alloy or equivalent.

(d) Precious Stone Denominations

1. A one-dollar stone token, containing one carat of certified cut quartz or equivalent.
2. A ten-dollar stone token, containing one carat of certified cut jade, emerald, or equivalent.
3. A twenty-five-dollar stone token, containing one carat of certified cut ruby or sapphire.
4. A fifty-dollar stone token, containing one carat of certified cut diamond.
5. Such additional denominations of precious stones as may be ratified by the Denizens through blockchain amendment to this schedule.

(e) General Provisions

1. All coins and stone tokens shall bear uniform inscriptions declaring their weight, purity, and certification, and shall be redeemable across the Union without alteration.

2. The specifications of each denomination shall be recorded immutably upon the blockchain ledger, and may not be altered except by ratification of the Denizens.
3. No coin or stone shall be issued of lesser weight, fineness, or value than herein specified.

Clause 1.3b - Certificates and Exchange

The gold, silver, copper, and certified precious stones of the Union shall be the sole backing of all United States Certificates. Such Certificates, whether in paper, debit, or credit form, shall circulate among the Denizens as tender in payment of debts, and shall be redeemable at any time in their equivalent weight of coin or stone.

No certificate shall be issued except upon deposit of equal value in the quad-metal and stone treasury, and all circulation shall be recorded immutably upon the blockchain.

Clause 1.3c - Gold-Woven Certificates and the Tally System

1. Substance and Weave.

Every United States Certificate may be printed upon cotton-linen stock interwoven with micro-threads of fine gold. Each thread shall be of certified weight and purity, constituting a lawful fractional deposit of the quad-metal treasury.

2. Tally Function.

The gold, silver, copper, and certified precious stones threads shall serve as a Tally Stick, a visible and tangible record of value. Their aggregate weight in any Certificate shall match its on-chain pledge and may be assayed by any Denizen without destruction of the note.

3. Dual Ledger Verification.

Each Certificate shall bear a unique serial hash linking the offline tally to the online blockchain entry.

The blockchain records the total issue, denomination, and purity.

The woven gold provides an offline, inflation-proof audit trail that can be compared at any time to the on-chain record.

4. Inflation Immunity.

Because the total gold thread in circulation cannot exceed the quad-metal reserves pledged, no new Certificates may be created without corresponding metal. This renders all Certificates inherently inflation-proof.

5. Restoration and Exchange.

Worn or damaged Certificates may be redeemed and re-woven at the Treasury, the recovered gold threads melted and re-certified into new issues. Every redemption and re-issue shall be logged upon the blockchain within twenty-four hours.

6. Authentication.

The Department of Government Efficiency (D.O.G.E.) shall audit the minting process, verifying weight, weave pattern, and serial hash integrity. Tampering or counterfeiting of the weave shall constitute High Crime of Debasement.

7. Symbolic Intent.

The woven gold represents the living bond between labor and earth - a covenant of tangible honesty joining the offline world of craft to the online realm of trust. Each thread is a filament of sovereignty, uniting hand and ledger.

Clause 1.4 - Weights and Measures.

To establish uniform standards of weights and measures across the Union.

Clause 1.5 - Post and Roads.

To establish post offices and roads for communication between the States.

 **Clause 1.6 - War Declaration. To declare war only upon blockchain ratification by the People, except in cases of direct invasion.**

Clause 1.7 - Armies, Air Force, Space Force and Navy.

To raise and support armies, provided that no appropriation of money to that use shall be for a longer term than two years, unless renewed by the blockchain. To provide and maintain Armies, an Air Force, a Space Force, and a Navy.

Clause 1.8 - Militia.

To call forth the militia of the several States to execute the laws of the Union, suppress insurrections, and repel invasions, but never to disarm or usurp the State militias.

Clause 1.9 - Review of Laws.

To review all public laws that fall below fifty percent (50%) jury rating, to amend or abolish them as the blockchain may direct.

Clause 1.10 - Private Laws.

To make private laws for specific Denizens, Nationals or Trust entities, where justice requires, but never to extend such laws to the People at large.

Clause 1.11 - Residual Prohibition.

The enumeration of certain prohibitions in this Article shall not be construed to grant Congress any power to act beyond them. Congress is likewise forbidden to enact or sanction any act contrary to the immutable laws of Article 12, or to natural rights unlisted herein.

No omission of prohibition shall be taken as license; for all powers not expressly granted to Congress are denied, and all rights and stewardships not expressly surrendered remain with the Denizens and with Nature itself.

Clause 1.12 - Immigration and Cohort Admission Protocol.

Congress shall have power to establish the standards, schedules, and oversight of the Cohort Admission Protocol (CAP), including:

- a. Defining uniform risk lanes (G, A, R) and their criteria, subject to blockchain ratification;
- b. Setting national caps and distribution formulas for Cohort admissions, ensuring proportional equity among the States;
- c. Establishing minimum transparency and audit requirements for State-sponsored PCAs and Cohort PCAs, including publication of capacity certificates, obligations, and results upon the blockchain;
- d. Coordinating with the Department of Government Efficiency (D.O.G.E.) for audit, enforcement, and fraud prevention in all CAP proceedings;
- e. Proposing amendments to CAP rules, subject always to blockchain ratification by the Denizens.

Article 10 - Of Prohibitions upon Congress

Section 1 - Forbidden Acts

Clause 1.1 - Direct Taxation.

Congress shall not lay any tax upon the People directly, whether upon income, property, or labor.

Clause 1.2 - Artificial Entities.

Congress shall not create corporate personhood or grant rights to artificial entities.

Clause 1.3 - Borrowing.

Congress shall not borrow money on the credit of the People without blockchain ratification.

Clause 1.4 - Habeas Corpus.

Congress shall not suspend the writ of habeas corpus, except in cases of rebellion or invasion where the public safety requires it.

Clause 1.5 - Bills of Attainder.

Congress shall not pass any bill of attainder, ex post facto law, or law impairing the obligation of contracts.

Clause 1.6 - Titles of Nobility and Expertise.

Congress shall not grant any title of nobility, nor establish hereditary offices. Likewise, no title of expertise shall be granted by any authority, public or private, to bind the free actions of the Denizens.

Neither degree, license, credential, nor certificate shall be construed to confer superiority of right or dominion over any Denizens, for sovereignty inheres only in the living being.

Clause 1.7 - Central Bank.

Congress shall not create a central bank or delegate the power of issuing money to private institutions.

Clause 1.8 - Internal Economy.

Congress shall not command or regulate the internal economy of any State, which shall remain sovereign in its system of gold, silver, copper, and precious stones.

Clause 1.9 - Proposal Quotas.

Congress shall not exceed the quota of proposals set forth for each Member, nor fail the minimum duty required.

Clause 1.10 - Jury Nullification.

Congress shall not interfere with the power of jury nullification, nor forbid juries from judging both the law and the facts in any case.

Clause 1.11 - Religion.

Congress shall make no law respecting an establishment of religion, nor prohibiting the free exercise thereof. No religious test shall ever be required as a qualification to any office or public trust. Neither Congress nor any State shall compel religious observance nor prohibit individual conscience.

Clause 1.12 - Prohibition of Retirement and Benefit Systems.

Congress shall not establish, administer, or mandate any system of retirement pay, pension, social security, health benefits, insurance programs, or similar schemes for any Denizen, National, or Citizen.

- a. No exception shall be permitted for officers of government, military veterans, or any class or status whatsoever.
- b. No tax, fee, or contribution shall ever be levied for the purpose of funding such systems.

c. Provision for age, health, or welfare shall remain solely a matter of private contract, voluntary association, or State law consistent with this Constitution.

Article 11 - Of Powers Denied to the States

Section 1 - State Restrictions

Clause 1.1 - Foreign Relations.

No State shall enter into any treaty, alliance, or confederation with foreign powers.

Clause 1.2 - Currency.

No State shall issue paper currency of its own, or anything but gold, silver, copper, and certified precious stones as tender in payment of debts.

 Clause 1.3 - Duties.

No State shall lay duties on imports or exports, except what may be necessary for executing its inspection laws, subject to blockchain review.

 Clause 1.4 - Armies.

No State shall maintain standing armies in times of peace, except such militia as is necessary for defense and order.

 Clause 1.5 - War.

No State shall engage in war, unless actually invaded, or in such imminent danger as will not admit of delay.

 Clause 1.6 - Prohibition of Retirement and Benefit Systems.

No State shall establish, administer, or mandate any system of retirement pay, pension, social security, health benefits, insurance programs, or similar schemes for any Denizen, National, or Citizen.

- a. No exception shall be permitted for officers of government, employees of the State, military veterans, or any class or status whatsoever, except as provided in subsection (b).
- b. A State may provide for the active members of its lawful militia, while in current service only, such health or welfare benefits as are necessary to the General Welfare of its Denizens. Such provision shall cease immediately upon discharge from active militia service and shall not extend to pensions, retirements, or perpetual obligations.
- c. No tax, fee, or contribution shall ever be levied by a State for the purpose of funding retirement or pension systems.
- d. All provision for age, health, or welfare beyond subsection (b) shall remain solely a matter of private contract or voluntary association, consistent with this Constitution.

Article 12 - Of Transparency

Section 1 - Public Accountability

Clause 1.1 - Publication of Records.

All Congressional records, debates, proposals, votes, and expenditures shall be published upon the blockchain in real time.

Clause 1.2 - Prohibition of Secrecy.

No secret law, secret budget, or classified statute shall bind the People.

Clause 1.3 - Emergency Measures.

Emergency measures taken in war shall be logged and set to expire automatically unless reapproved by blockchain vote of the People.

Section 1.4 - Digital Deliberation

Denizens may gather in private digital domains to deliberate on proposed laws, amendments, and policies. Final votes and ratifications shall only take effect when published to the Union blockchain.

The Law Language Model shall be publicly accessible to translate all proposals into plain language, ensuring transparency and comprehension.

Livestreams of deliberations and debates shall be hashed to the blockchain for permanent archiving.

Article 13 - Of Compensation

Section 1 - Salaries of Members

Clause 1.1 - Fair Compensation.

Members of Congress and Senate shall receive a salary from the Federal Treasury, paid in United States Certificates backed by quad-metal pledges.

Clause 1.2 - Blockchain Disclosure.

All salaries shall be published upon the blockchain ledger in real time.

Clause 1.3 - Adjustment of Pay.

Compensation may be altered only by blockchain vote of the People, and no increase shall take effect until after the next election of Representatives.

Clause 1.4 - Prohibition of Extra Benefits.

No Member shall receive pensions, stipends, or benefits beyond salary and lawful expenses of office, which shall likewise be published upon the blockchain.

Clause 1.5 - Prohibition of Insider Trading.

No Member of Congress, nor any immediate family member, shall buy, sell, or trade in any security, commodity, or contract based on knowledge gained through public office.

All investments of Members during service shall be placed in blind trust, audited upon the blockchain, and disclosed in real time. Violation shall constitute breach of oath and bond, and require restitution and forfeiture.

Article 14 - Of Oath and Bond of Honor

Section 1 - Oath of Office

 **Clause 1.1 - Oath. Every Representative and Senator shall, before entering upon their duties, swear or affirm the following Oath:**

"I solemnly swear (or affirm) that I will preserve the Sovereignty of the People, uphold the rights of Denizens, respect the Definitions Ledger, and serve with integrity under this

Constitution. I shall not enrich myself or others by public act, but shall act only for justice and the general welfare. So help me God (or under my conscience)."

Section 2 - Bonds of Honor

Clause 2.1 - Requirement.

Each Member of the House and Senate shall deposit a Bond of Honor in the Vault of their home State, pledged in gold, silver, copper, precious stones, or land of verified value.

Clause 2.2 - Minimum Bonds.

- a. Members of the House shall pledge not less than **1,000 ounces of silver** or equivalent.
- b. Senators shall pledge not less than **2,000 ounces** of silver or equivalent.

Clause 2.3 - Refund and Reward.

- a. Upon honorable completion of service without breach of oath, the Bond shall be refunded with an annual interest premium of not less than eight percent (**8%**), drawn from the Federal Treasury, and payable in metal or equivalent certificates.

b. Upon conviction of breach, the Bond shall be forfeited in whole or part to the State Vault for restitution, replenishment of the Treasury, or public good.

c. In cases of Treason, the Bond shall be fully confiscated with no restitution.

Clause 2.4 - Transparency.

All Bonds shall be recorded and published upon the blockchain, visible to every Denizen.

Clause 2.5 - Purpose of Bonds.

The Bond of Honor is not a mere security but a covenantal investment. The Denizens, as the hive, entrust authority to their officers; the officers, as defenders, pledge their wealth in return. In this exchange, the People invest in their servants, and their servants invest back into the People.

Thus, if service is faithful, the Bond grows and returns with increase; if service is corrupt, the Bond is lost, restoring balance through restitution. In this way, the Bond ensures that public service shall never be a path of profit without risk, but always a stewardship of trust and accountability.

Clause 2.6 - Penalties. Upon conviction, the jury may impose one or more of the following:

- a. Removal from office;
- b. Forfeiture of the Bond, in whole or in part;
- c. Restitution to injured parties;
- d. Disqualification from future office (ten years minimum, life for High Crimes);
- e. Fines no less than five times the value of ill-gotten gains;
- f. Imprisonment under State law, proportionate to the offense.
- g. *Death*; in cases of proven High Crimes or Treason committed during war, or where an intentional and direct act of betrayal under color of office results in the loss of life of the People, or set of people.

Such a penalty shall only be imposed upon a conviction by a Special Denizen Jury with unanimous agreement of all members, and only upon evidence that is beyond any and all reasonable doubt, corroborated by witnesses or equivalent proof of absolute certainty.

This penalty shall apply equally to all public officers of the Union or of the several States, including legislators, executives, judges and Denizens of the Union.

 Clause 2.7 - Breach of Oath. A breach of the Oath occurs when an Officeholder knowingly and intentionally:

- a. Proposes, endorses, or enforces a law granting rights to artificial entities or creating corporate personhood;
- b. Accepts or conceals a bribe, gift, or contract for the purpose of changing official action;
- c. Tamper with, falsifies, or attempts to alter the public blockchain;
- d. Conspires with or aids a foreign power to the manifest injury of the Union;
- e. Abolishes, disables, or obstructs the jury's right to judge both law and fact;
- f. Willfully deprives the People or the States of honest weights, measures, or pledged resources; or
- g. Commits any other grave act intended to subvert this Constitution.

 Closing Book One - The Legislature of the Sovereign States of America

The Sovereign States of America shall govern not by forgetting yesterday's surplus, nor by borrowing from tomorrow's labor, but by carrying forward the weight of honor across time.

Book II — Of the Executive

Preamble — The Helmsman and the Glass Compass.

In a hard season the ship did not need a poet; it needed a steady hand. The People chose a helmsman not to own the vessel, but to keep it off the rocks. He was given a compass and a chart, not a crown; an order-book for the crew, not a whip for the passengers.

And because storms make excuses easy, the People required two anchors: **a public ledger** so every order could be seen, and **a Bond of Honor** so every order carried weight. The helmsman could steer—quickly, decisively—but only within the plotted law; he could command the ship's officers, but he could not command the souls aboard.

When danger came, he could act fast, then show his work in daylight; and if he used emergency power as a mask for appetite, the bond would bleed, and the jury would speak.

Title 2 — Of the Executive

Article 1 — Of the President and Vice President

Section 1 — Of the President and Vice President

Clause 1.1 — Vesting of Power.

The executive power of the Union shall be vested in a President of the Sovereign States of America. He shall hold office for a term of four (**4**) years, together with a Vice President chosen for the same term.

Clause 1.2 — Election.

The President and Vice President shall be chosen by the People of the several States through blockchain-secured election. Each State shall appoint, in such manner as its Legislature may direct, a number of Electors equal to the whole number of its Senators and Representatives in Congress; the Electors shall record their votes upon the blockchain and transmit them to Congress in public session.

Clause 1.3 — Qualifications.

No person shall be eligible to the office of President who shall not have attained the age of thirty-five (**35**) years, been a Denizen of the Union for at least fourteen (**14**) years,

and taken the Oath and Bond herein prescribed.

Clause 1.4 — Succession.

In case of removal, death, resignation, or inability of the President, the Vice President shall assume the office. Further succession shall be provided by law, subject always to blockchain ratification.

Section 2 — Of the Oath and Bond of the Executive

 **Clause 2.1 — Oath of Office.** Before entering upon the duties of office, the President shall swear or affirm:

"I do solemnly swear (or affirm) that I will faithfully preserve, protect, and defend the Sovereignty of the People and the Rights of the States; that I shall execute the laws ratified upon the blockchain with fidelity; that I shall guard the Union against foreign enemies while never usurping the liberties of the People; and that I shall honor this Constitution in all my acts, so help me God (or under my conscience)."

Clause 2.2 — Bonds of Honor.

The President shall deposit a Bond of Honor of not less than ten thousand (**\$10,000 oz**) ounces of silver, pledged in metals or land of verified value, into the Vault of his home State. The Vice President shall pledge not less than five thousand (**\$5,000 oz**) ounces of

silver.

Clause 2.3 — Refund and Forfeiture.

Upon honorable completion of service without breach, the Bond shall be refunded with an annual premium of not less than eight percent (**8%**). Upon conviction of Breach of Oath, High Crime, or Treason, the Bond shall be forfeited to the State Vault and distributed for restitution and public good.

Section 3 — Of Executive Power

Clause 3.1 — Commander in Chief.

The President shall be Commander-in-Chief of the Army, Navy, Air, and Space Forces of the Union, and of the militia of the several States when called into actual service of the Union, subject always to the blockchain requirement of Congress to declare war.

Clause 3.2 — Advisory Authority.

He may require the opinion in writing of the principal officer in each of the executive departments upon any subject relating to the duties of their offices.

Clause 3.3 — Pardons and Reprieves.

The President may grant reprieves and pardons for offenses against the Union, except in cases of Breach of Oath, High Crimes Against the Covenant, Treason, or where Bond has been forfeited.

Clause 3.4 — Treaties.

He shall have power, by and with the advice and consent of two-thirds (**2/3**) of the Senate, to make treaties, provided that no treaty shall violate the quad-metal sovereignty of the States or the rights of Denizens.

Clause 3.5 — Denizen Authority Over the Military

- (a) All military forces of the Union shall remain forever subordinate to the sovereignty of the Denizens. No officer, soldier, or commander shall exercise power apart from blockchain ratification and jury oversight.
- (b) The President, as Commander-in-Chief, is a steward only, bound by fiduciary oath and bond to execute the will of the Denizens. Military command does not create sovereignty, but serves it.
- (c) The military shall never govern, legislate, or police Denizens, nor assume civil authority within the Union. Any attempt to do so constitutes Treason and Breach of Oath.

(d) Denizens shall retain ultimate authority to direct, limit, or dissolve military operations by blockchain vote. Such decision shall bind all officers without exception, including the Commander-in-Chief.

(e) All deployments, acts of war, and military occupations shall be justified openly to the Denizens, published upon the blockchain, and expire unless re-ratified within intervals set by this Constitution.

Section 4 — Of Executive Orders

Clause 4.1 — Authority.

The President may issue Executive Orders which shall apply only to the operations of federal agencies and officers, and shall not bind the People, the States, or their internal economies.

Clause 4.2 — Transparency.

All Executive Orders shall be published upon the blockchain within twenty-four (24) hours of issuance and shall remain part of the permanent public record.

Clause 4.3 — Duration.

Executive Orders shall remain in force until revoked by the President, overturned by the

Senate with two-thirds (**2/3**) concurrence, or nullified by majority vote of the Denizens upon the blockchain.

Clause 4.4 — Emergency Orders.

In cases of war or imminent foreign attack, the President may issue Executive Orders with immediate effect; such orders shall remain in force subject to the same provisions as Clause 4.3.

Section 5 — Of Duties of the President

Clause 5.1 — State of the Union.

From time to time, the President shall give to Congress and the People upon the blockchain information on the state of the Union, and recommend such measures as he shall judge necessary and expedient.

Clause 5.2 — Tariffs.

The President shall have sole authority to set and adjust tariffs upon foreign imports and exports for the protection of domestic industries and Denizen ownership of production. Every tariff shall be published upon the blockchain within twenty-four (**24**) hours, stating

its purpose, duration, and expected outcome. Each tariff shall expire after one hundred eighty (**180**) days unless renewed upon new evidence.

A Citizen Jury shall review each tariff every six (**6**) months, with power to uphold, reduce, or dissolve it. The Vice President, through D.O.G.E., may suspend any tariff for seventy-two (**72**) hours pending blockchain review.

Clause 5.3 — Foreign Ministers.

He shall receive ambassadors and other public ministers.

Clause 5.4 — Commissions.

He shall commission all officers of the Union.

Clause 5.5 — Integration of Interactive Governance into the State of the Union

The annual State of the Union Address shall include a complete report of interactive civic participation as follows:

1. A tally of all laws introduced, debated, and ratified during the preceding year, including their current LAR scores and status of enforcement.
2. The number of Law Language Models (**LLMs**) deployed, their accessibility metrics,

and summaries of aggregate question data provided by Denizens.

3. A summary of mandatory live sessions, including attendance counts, participation levels, and audit compliance for each Representative and Senator.

4. Trends in blockchain voting activity, including turnout by State, fraud detection rates, and accessibility improvements for elderly and disabled Denizens.

5. A comprehensive review of D.O.G.E. audits, including compliance gaps, unresolved critical issues, and corrective actions taken.

6. A public plan for the following year to improve transparency, accessibility, and security of the Union's digital governance systems.

This report shall be published in full upon the blockchain simultaneously with the Address, and shall remain permanently accessible to every Denizen for independent audit.

Section 6 — Of Financial Stewardship

Clause 6.1 — Countersignature of Expenditures.

No funds of the Union shall be disbursed, nor any payment issued from the Treasury, except upon the personal signature of the President of the Union. This duty is

non-delegable; no officer or department may substitute for his hand.

Clause 6.2 — Fraud Oversight.

In signing each disbursement, the President shall exercise fiduciary oversight. Where fraud, waste, or abuse is suspected, the President may suspend the payment and demand immediate review by the Department of Government Efficiency (**D.O.G.E.**). No suspended funds shall be released until such review is complete, and restitution shall be drawn from the Bonds of Honor of any officer found complicit.

Clause 6.3 — Emergency Auto-Pen.

In times of declared war, invasion, or national emergency, where the lawful volume of disbursements exceeds the reasonable capacity for hand signature, the President may employ a secure auto-pen, under the following conditions:

- a. The auto-pen may be used only during the declared emergency, and only by the President.
- b. Each disbursement must still be reviewed and authorized individually; bulk approval is forbidden.
- c. Every auto-pen signature shall be recorded as such upon the sovereign blockchain, with purpose and authorization logged.

d. Upon termination of the emergency, all auto-pen expenditures shall be subject to audit by D.O.G.E. and review by a Citizen Jury.

Clause 6.4 — Separation of Duties.

This duty applies only to expenditures of the Union government. Surplus funds allocated to the Union Surplus Allocation Fund or Inter-State Surplus Sharing Fund shall remain under fiduciary custody of the Electoral Fiduciary College, and are not subject to Presidential countersignature.

Section 7 — Of Removal

Clause 7.1 — Grounds.

The President, Vice President, and all civil Officers of the Union shall be removed from office upon conviction of Breach of Oath, High Crimes Against the Covenant, Treason, or corruption, as adjudicated by a Citizen Jury convened under the Supreme Court.

Clause 7.2 — Bond Forfeiture.

In such cases, their Bonds shall be forfeited to the State Vaults, and they shall be subject to penalties as prescribed, including disqualification, restitution, imprisonment, or death

as the jury shall decide.

Section 8 — Of Nomination by the People

Clause 8.1 — Right of Nomination.

In each presidential election cycle, the People shall possess the right, through blockchain petition, to nominate one candidate of their choosing to be invited to stand for the office of President.

Clause 8.2 — Threshold.

A nominee shall be certified when no fewer than one percent (**1%**) of all eligible Denizens have signed the blockchain petition in their favor. Each Denizen may sign for only one nominee per cycle.

Clause 8.3 — Invitation.

Upon reaching threshold, the blockchain shall issue a public invitation to the nominee, requesting acceptance or refusal. Acceptance places the nominee upon the ballot; refusal shall be recorded publicly.

Clause 8.4 — Vice Presidential Designation.

The nominee, upon acceptance, shall designate a Vice President to stand with him upon

the ballot.

Clause 8.5 — Electoral College.

Nomination by the People constitutes only an invitation to candidacy and shall not substitute for election of the President, which shall proceed through the Electoral College.

Clause 8.6 — Transparency.

All petitions, signatures, certifications, acceptances, refusals, and designations shall be published upon the blockchain in real time.

Section 9 — Of Emergency Replacement

Clause 9.1 — Nomination.

In cases of vacancy of high federal office — including the Presidency, Vice Presidency, or Justices of the Supreme Court — the President shall nominate a replacement as provided in this Constitution.

Clause 9.2 — People's Petition.

Should such nomination fail to be confirmed within sixty (**60**) days, the People shall, through blockchain petition, nominate a candidate under the same process as Section 7, except that the threshold shall be three percent (**3%**) of eligible Denizens.

Clause 9.3 — Blockchain Confirmation.

The People's Emergency Nominee, once certified, shall be placed upon the ballot for blockchain confirmation.

Clause 9.4 — Installation.

If confirmed by majority of voting Denizens, the nominee shall be installed into the vacant office with full authority.

Clause 9.5 — Non-Vacancy.

This process shall ensure that no office of the Union remain vacant or obstructed by factional deadlock.

Section 10 — Of the Vice President

Clause 10.1 — Senate Role.

The Vice President shall preside over the Senate and cast a vote only in case of tie.

Clause 10.2 — Department of Government Efficiency.

The Vice President shall serve as Chief Executive of the Department of Government Efficiency (**D.O.G.E.**), whose charge shall be:

- a. To audit all executive departments for waste, fraud, and delay;
- b. To ensure the faithful execution of Executive Orders, verifying compliance, speed, and transparency;
- c. To publish quarterly blockchain reports of departmental performance;
- d. To recommend to the President and Congress measures for efficiency, simplification, or abolition of redundant offices.

 Clause 10.3 — Oversight Authority.

The Vice President may suspend any tariff, contract of protection, or executive measure for seventy-two (**72**) hours to permit blockchain review where fraud, abuse, or constitutional violation is suspected.

 Clause 10.4 — Removal.

The Vice President shall have full executive authority over D.O.G.E. and its officers, subject only to removal by the People through blockchain recall or conviction under Article I.

 Clause 10.5 — Liaison to the States.

The Vice President shall also serve as Liaison of the Executive to the States, ensuring

constant communication regarding pledged resources and quad-metal accounts.

Clause 10.6 — Bond.

The Vice President shall be bound by the same Oath and Bond requirements as the President, though in half measure of pledge.

Clause 10.7 — Oversight of Interactive Governance

The Department of Government Efficiency (**D.O.G.E.**) shall continuously oversee all systems required under Title I and Title V relating to Law LLMs and live public sessions.

Duties shall include:

1. Real-time auditing of all active Law LLMs to ensure accuracy, neutrality, and transparency of training data.
2. Verification that live public sessions meet timing, accessibility, and transparency requirements, with immediate flagging of violations.
3. Monitoring of blockchain voting windows for security breaches, duplicate participation attempts, or automated manipulation.
4. Publishing quarterly reports on blockchain for every State, including audit scores, fraud incidents, and corrective actions taken.

5. Providing continuous support to States for terminal access, multilingual interface improvements, and devices for Denizens with special needs.

6. Immediate suspension authority over any law proposal showing evidence of manipulation, until reviewed and resolved by the People through a blockchain vote.

D.O.G.E. shall operate as a neutral, transparent entity and may not influence the content of proposals or voting outcomes, only the integrity of their processes.

Section 11 — Of Appointments, Succession, Emergency Powers, Pardons, and Term Limits

Clause 11.1 — Appointments and Confirmations.

a. The President shall nominate, and by and with the advice and consent of the Senate, shall appoint Ambassadors, public Ministers, Consuls, Judges of the Supreme Court, and all principal Officers of the Union.

b. All nominations shall be published upon the blockchain within twenty-four **(24)** hours.

c. The Senate shall confirm or reject within sixty **(60)** days; failure to act shall constitute rejection.

- d. Should rejection or deadlock persist, the People may invoke the Emergency Replacement process of Section 8.
- e. No nominee may assume office until confirmed by Senate or blockchain.

 Clause 11.2 — Succession.

- a. In case of removal, death, resignation, or inability of both the President and Vice President, the powers and duties of the Presidency shall devolve temporarily upon the Speaker of the House.
- b. Within thirty (30) days of such succession, a national blockchain election shall be held to confirm or replace the acting President, who shall serve only until the next regularly scheduled presidential election.

 Clause 11.3 — Emergency Powers.

- a. In cases of foreign invasion, insurrection, or imminent attack, the President may act immediately to repel danger, but all such acts must be logged upon the blockchain within twenty-four (**24**) hours and shall expire after ninety (**90**) days unless renewed by blockchain ratification.
- b. In cases of domestic emergency — including natural disaster, epidemic, or infrastructure collapse — the President may issue emergency orders of limited scope

and duration, which shall expire after thirty (30) days unless ratified by the People upon the blockchain.

c. No emergency shall justify suspension of jury trials, blockchain transparency, quad-metal currency protections, or the right of the People to petition.

Clause 11.4 — Wartime Monetary Authority.

a. In times of declared war, the President may, by Executive Order, authorize the temporary issuance of United States Certificates backed by petroleum reserves or other strategic resources of verified value, in substitution for or in addition to quad-metal and stone reserves.

b. Such authorization shall:

i. Take effect only upon blockchain publication of the Executive Order;

ii. Specify the precise reserves pledged, their location, quantity, and redemption terms;

iii. Expire automatically after one hundred eighty (**180**) days unless re-ratified by the People upon the blockchain.

c. The Vice President, through D.O.G.E., shall audit all pledged reserves and publish findings upon the blockchain.

d. A Citizen Jury shall review such wartime orders within ninety (**90**) days, with power to uphold, amend, or dissolve them.

e. No wartime monetary authority shall permit issuance of fiat currency, nor diminish the permanent sovereignty of quad-metal and stone as lawful foundation.

 Clause 11.4 — Wartime and National-Attack Monetary Authority; Liquidity Ladder.

(a) Trigger. In times of **declared war**, or in the event of **foreign invasion, imminent attack, or verified attack upon the Nation**, including material cyberattack upon critical infrastructure, the President may, by Executive Order, authorize the temporary issuance of United States Certificates backed by petroleum reserves or other strategic resources of verified value, in substitution for or in addition to quad-metal and stone reserves.

(b) Publication. Such authority shall take effect only upon blockchain publication of the Executive Order within twenty-four (**24**) hours, and shall specify:

(i) the precise reserves pledged;

(ii) location, quantity, and custody;

- (iii) valuation method;
- (iv) redemption terms; and
- (v) the specific purpose and duration of issuance.

(c) Duration and Sunset.

1. In **declared war**, such authorization shall expire automatically after one hundred eighty (**180**) days unless re-ratified by the People upon the blockchain.

2. In **attack without declared war**, such authorization shall expire automatically after thirty (**30**) days unless re-ratified by the People upon the blockchain, and shall not be renewed beyond ninety (**90**) days total absent a declaration of war or a supermajority ratification as prescribed by this Constitution.

(d) Audit and Review.

The Vice President, through D.O.G.E., shall audit all pledged reserves and publish findings upon the blockchain. A Citizen Jury shall review such orders within ninety (**90**) days, with

power to uphold, amend, or dissolve them.

(e) Prohibitions. No wartime or attack monetary authority shall permit issuance of fiat currency, nor diminish the permanent sovereignty of quad-metal and stone as lawful foundation.

(f) Liquidity Ladder; Order of Preference. Before authorizing new issuance under this Clause, the Executive shall proceed by the following order of preference, unless impracticable; any deviation shall be justified in writing within the Executive Order and is subject to audit and jury review:

1. **Redeem and deploy the Union Emergency Reserve** for defense, continuity, and repulsion of danger, as already permitted by the Union Credit Instrument.

2. **Invoke State-pledged collateral** to expand lawful Union credit capacity under the Union Credit Instrument, within recorded pledges and on-chain limits.

3. **Adjust lawful tariffs and emergency trade measures** within existing constitutional limits, for replenishment and repayment rather than debasement.

4. **Petition the States' Infinite Banking Treasuries** for a standing credit draw, under terms defined by law, recorded on-chain, and repayable with interest.

5. **Only as last resort**, seek extraordinary re-allocation of any consecrated First Fruits / tithe-out flows, solely by the unanimous ratification standard already required for non-enumerated diversion of surplus.

(g) Non-Seizure of Fiduciary Surplus. Nothing in this Clause shall be construed to seize or commandeer fiduciary surplus held under the Electoral Fiduciary College; any participation of fiduciary surplus must occur only through its lawful fiduciary processes and constitutional voting requirements.

 Clause 11.5 — Limits of Pardon.

a. The President may grant reprieves and pardons for offenses against the Union, except:

- i. In cases of Breach of Oath, High Crimes Against the Covenant, or Treason;
 - ii. To himself, to members of his family, or to any co-conspirator in the offense;
 - iii. Where conviction has resulted in forfeiture of Bond.
- b. All pardons shall be recorded upon the blockchain within twenty-four (24) hours, with reasons stated.

 Clause 11.6 — Term Limits.

- a. No person shall be elected to the office of President more than twice.
- b. No person who has held the office of President, or acted as President, for more than two (**2**) years of a term to which some other person was elected shall be elected more than once.

 Section 12 — Of the Protection of Denizens Abroad

 Clause 12.1 — Duty of Protection.

The President shall establish and maintain an Office for the Protection of Denizens Abroad, whose sole charge shall be to safeguard the lives, liberty, and property of Denizens traveling or residing in foreign lands.

Clause 12.2 — Full Faith and Force.

Any harm or unlawful detention of a Denizen by foreign powers shall be treated as an affront to the Sovereign States of America. The Union shall respond with all measures of diplomacy, trade, and, if necessary, defense, as authorized by this Constitution.

Clause 12.3 — Emergency Assistance.

The Office shall provide immediate aid, legal counsel, and, when needed, evacuation or extraction of Denizens in distress abroad, publishing its actions upon the blockchain for transparency.

Clause 12.4 — Funding.

All expenditures of this Office shall be drawn from the Federal Treasury and published in real time upon the blockchain, subject to audit by D.O.G.E.

Clause 12.5 — Accountability.

No officer of this Office may neglect the call of a Denizen in peril abroad. Willful neglect shall constitute Breach of Oath, subject to forfeiture of Bond and removal.

Title 3 – Of the Judiciary and the Separation of Meaning and Outcome

Preamble

The judiciary of the Union exists to apply law as written, to safeguard the rights of Denizens, to hold Citizens bound to their oaths, and to preserve justice without invention, corruption, or secrecy. Courts are servants of law, not its authors, and shall stand under the sovereignty of the People, juries, and the immutable record upon the blockchain. The highest compass of judicial power is Love, the foundational energy of the universe and the eternal covenant of Article XII.

Justice fails when one mind is asked to hold meaning, power, fact, and outcome at once. Where such fusion persists, law drifts, conscience erodes, and authority hardens into rule by robe.

Therefore, the Sovereign States of America establishes a Split-Mind Judiciary, by which:

- Meaning is guarded without outcome power, and
- Outcome is rendered without power over meaning.

This separation is not procedural convenience, but constitutional necessity.

Article III-A — The Split-Mind Principle

Article III-A — The Canon of Coherence, Scale, and Feedback

1. Purpose.

The Courts of the Sovereign States of America shall interpret and apply law so as to preserve coherence, prevent runaway incentives, and secure stable liberty across time and scale. This Canon is adopted as a discipline of reasoning for remedies and outcomes, not as a grant of new powers.

2. Icon of Coherence.

The Union recognizes the mathematical identity $e^{i x} = \cos(x) + i \sin(x)$ as an emblem of coherence, phase, and bounded cyclic motion. Its use herein is symbolic and educational, and shall not be construed as establishment of religion, metaphysical decree, or scientific mandate.

3. 🌿 **Scale and Recursion.**

The Courts shall consider that rules, remedies, and precedents repeat across scale and time. A lawful remedy that predictably becomes a loophole, contagion, or systemic exploitation when repeated shall be narrowly tailored, sequenced, damped, or denied.

4. 🌀 **Distributed Pattern and Redundancy.**

Because social order and meaning are carried through many parts (**persons, institutions, records, incentives**), the Courts shall favor remedies that preserve distributed resilience: clear records, redundancy of protections, and firebreaks against cascading failure.

5. 🌡️ **Entropy and Maintenance.**

The Courts shall recognize that systems decay without repair. Where a remedy or interpretation increases institutional brittleness, secrecy, contradiction, or moral hazard, the Court shall prefer the least-amplitude remedy that restores lawful

function with minimal collateral disorder.

6. **Coupling and Spillover.**

The Courts shall assess foreseeable second-order effects in tightly coupled domains (**finance, property, custody, public safety, civil rights, and critical infrastructure**). Findings shall state why the chosen remedy is expected to stabilize rather than destabilize.

7. **Required Tests (Minimum Findings).**

When issuing injunctions, structural relief, or precedent-setting opinions, the Court shall address:

-  **Scale Test:** micro (**parties**), meso (**industry/community**), macro (**precedent/incentives**).
-  **Recursion Check:** if repeated widely, does it stabilize or exploit?

-  **Phase/Sequence:** should relief be staged to prevent overshoot?
-  **Resonance Risk:** could small changes trigger large cascades?

8.  **No Expansion of Authority.** Nothing in this Canon authorizes the Court to invent law, rewrite text, or substitute policy preferences for enacted meaning. It is a compass for restraint and functional remedy within lawful bounds.

Article III-B — The Split-Mind Principle

1. No single officer, body, or court shall possess authority over:

- Constitutional meaning,
- Determination of fact,
- Interpretation of intent, and
- Final judgment or remedy

...within the same cause.

2. Judicial authority is hereby divided between:

- Judges, as interpreters of Article 0 only; and
- Juries, as sovereign interpreters of human reality.

3. Any law, rule, or practice that reunites these authorities is void.

Article III-C — Of Judges (The Lens)

1. A Judge of the SSA serves solely as a constitutional lens, bound to Article 0.

2. A Judge shall not:

- Find or weigh facts,
- Interpret statutory law beyond facial coherence,
- Determine guilt, innocence, liability, damages, or remedy,
- Issue binding precedent beyond Title-based compliance,
- Act as moral oracle, legislator, or policy-maker.

3. A Judge may:

- Review filings and procedures for compliance with Article 0,
- Halt proceedings that violate Functionality, Adaptability, or Sustainability,
- Narrow or clarify proceedings to restore constitutional coherence,
- Issue Title-based constraints defining permissible and impermissible outcomes.

4. A Judge shall never decide the outcome of a case.

Article III-D — Of Juries

1. The Jury is the sovereign interpreter of:

- Facts and evidence,
- Statutory law as written,
- Intent and context,
- Harm suffered,
- Remedy required.

2. In every case, the Jury shall receive:

- The applicable statutory law,
- Relevant constitutional text,
- The Judge's Title-based constraints only.

3. Within those constraints, the Jury's verdict shall be final as to:

- What occurred,
- What it means in human terms, and
- What restoration or remedy is just.

4. Every Jury shall be informed of its full authority to judge both law and fact, including the power and duty of nullification.

Article III-E — Judicial Flow

All judicial proceedings shall follow this order, without exception:

1. Filing of charge or claim.
2. Judicial screening for compliance with Article 0 only.
3. Issuance of narrow Title-based constraints, if required.
4. Jury trial on facts, law, intent, harm, and remedy.
5. Jury verdict rendered.
6. Judicial verification of Title compliance.
7. Entry of judgment.

No Judge may alter, replace, or supply a verdict or remedy.

Article III-F — Verification and Return

1. If a Jury's verdict or remedy violates Article 0, the Judge shall:

- Identify the specific violation, and
- Return the matter to the Jury for revision.

2. A Judge shall not:

- Rewrite the verdict,
- Substitute an alternative remedy, or
- Condition compliance upon judicial preference.

3. Verification is structural, not discretionary.

Article III-G — Prohibition of Drift

1. No judicial decision shall amend constitutional meaning by implication.
2. No doctrine of living constitution, judicial deference, or administrative supremacy shall be recognized.
3. Constitutional evolution shall occur only by explicit amendment under Article X.

Precedent binds no future court beyond the specific Title compliance determined.

Article III-H — Oath, Bond, and Accountability

1. Every Judge shall swear an oath to uphold Article 0 and the Split-Mind Principle.

2. Judges shall be personally bonded to their oath by material pledge, forfeitable upon verified breach.

3. Upon forfeiture, pledged assets shall be applied to public restitution.

The particulars of oath, bond, and vaulting shall be defined by Judicial Codex, consistent with this Title.

Oath of Constraint

"I swear that I shall hold meaning without outcome, and never outcome with meaning. I shall not decide fact, intent, guilt, innocence, damages, or remedy.

I shall not reach for results, nor bend process toward preference.

I accept that restraint is my authority."

Oath to Article 0

"I swear fidelity to Article 0, and to the Three Immutable Titles therein:

Functionality, Adaptability, and Sustainability.

I shall interpret no law, action, or proceeding except through these lenses.

Where human law conflicts with these Titles, I shall halt, narrow, or clarify—never excuse."

Oath of Non-Creation

*"I swear that I shall create no law by precedent,
Amend no constitution by implication,
And recognize no doctrine that permits drift by interpretation.
The Constitution shall not move through me unless the People move it openly."*

Oath to the Jury

*"I swear to protect the sovereignty of the Jury.
I shall not instruct them away from conscience,
Nor restrain their authority to judge both law and fact.
I shall guard their space, not govern their verdict."*

Oath of Transparency

"I swear that my acts shall stand in the light.

I shall issue no secret ruling, sealed meaning, or hidden judgment.

My reasoning shall be recorded, my decisions auditable, my limits visible."

Oath of Bond and Forfeiture

"I acknowledge that this oath is secured by my personal bond.

If I knowingly breach this oath—

By overreach, obstruction, concealment, or fusion of powers—

I consent, without appeal, to the forfeiture of that bond

For restitution to the public trust."

Oath of Final Accountability

"I swear this oath freely, knowing that ignorance is no defense,

Efficiency no excuse,

And good intention no shelter.

I accept that the cost of authority is consequence."

Affirmation

*"I take this oath not to rule outcomes,
But to guard the shape of justice itself.
So sworn. So bound. So witnessed."*

Article III-I — Transparency

1. All judicial proceedings shall be recorded and published as public record.
2. No secret opinions, sealed precedents, or undisclosed rulings shall exist.
3. Narrow redactions are permitted solely to protect victims.

Transparency is a constitutional safeguard, not an administrative option.

Closing Clause

A Judge guards the shape of the house.

A Jury decides what happens inside it.

Neither may move the walls alone.

Article 2: Powers, Jurisdictions and Process

Section 1. Of Judicial Power

1. The judicial power of the Union shall be vested in one Supreme Court and in such inferior courts as Congress may from time to time establish, subject to blockchain ratification by the People.
2. The judicial power shall extend to all cases arising under this Constitution, the laws ratified upon the blockchain, and treaties made under the authority of the Union; to controversies between States; between a State and Denizens of another State; between Denizens of different States; and between a State or its Denizens and foreign nations.
3. Judicial power shall include the issuance of lawful summonses and writs as herein provided, but shall never presume to interpret, redefine, or alter the meaning of this Constitution, the Definitions Ledger, or the blockchain statutes of the People.

Section 2. Of Jurisdictions

1. The judicial power shall extend distinctly to five jurisdictions:
 - a. **Common Law**, concerning rights, contracts, property, torts, and wrongs between Denizens, where trial by jury shall remain inviolate.

b. **Equity**, concerning remedies where the law provides none, including injunctions, trusts, and relief beyond damages, always subject to voluntary submission by the parties.

c. **Admiralty and Maritime**, concerning disputes arising upon the seas, navigable waters, or commerce thereon, to be applied only where the cause is truly maritime in nature.

d. **Aeronautical**, concerning disputes arising in the air or outer atmosphere, including navigation, collisions, and commerce therein.

e. **Celestial**, concerning disputes arising in outer space, upon celestial bodies, or in interplanetary commerce, navigation, colonization, or treaties, measured against the Codex of Celestial Law and the Codex of Celestial Ethics.

2. No Denizen shall be compelled, by presumption or deceit, to submit to Equity, Admiralty, Aeronautical, or Celestial jurisdiction where the matter is proper to Common Law.

3. In any conflict of jurisdiction, the default presumption shall favor Common Law and the right of jury trial.

Section 3. Of the Oath and Bond of Judges

1. Before assuming office, every Justice and Judge shall swear the following Oath:

*"I do solemnly swear (**or affirm**) that I will apply the law as written, without interpretation or invention; that I shall uphold the sovereignty of jury trial and the power of the People; that I shall not alter definitions nor corrupt the record of law; and that I shall render judgment with equity, transparency, and Love under this Constitution. So help me God (or under my conscience)."*

2. Each Justice of the Supreme Court shall deposit a Bond of Honor of not less than \$15,000 ounces of silver into the Vault of his home State. Judges of inferior courts shall pledge not less than \$10,000 ounces of silver.

3. Upon honorable completion of service without breach, the Bond shall be returned with interest at twenty five percent per annum. Upon conviction of Breach of Oath, High Crime, or Treason, the Bond shall be forfeited to the State Vault.

Section 4. Of Tenure and Term Limits

1. Justices of the Supreme Court shall hold office for a term of twelve years, and may

- be reappointed once, but no person shall serve more than twenty-four years in total.
2. Judges of inferior courts shall hold office for a term of eight years, renewable once.
 3. All judges remain subject to recall or removal upon conviction of Breach of Oath, High Crimes Against the Covenant, or Treason.

Section 5. Of Juries

1. In all criminal prosecutions, the accused shall enjoy the right to a speedy and public trial by an impartial jury of the State and district wherein the crime was committed.
2. In all civil cases where the value in controversy exceeds twenty ounces of silver, the right of trial by jury shall be preserved.
3. Every jury shall possess the full authority to judge both the facts and the law, and no court shall forbid them.
4. Jury nullification shall serve as a live measure of public conscience, and any law consistently nullified shall be subject to review and repeal as provided in Article I.

Section 6. Of Transparency

1. All judicial proceedings shall be recorded and published upon the blockchain, except where narrowly redacted to protect innocent victims, with approval of the Accountability Tribunal.
2. No secret opinions, sealed precedents, or classified rulings shall bind the People.
3. All judicial proceedings involving private digital domains shall be conducted with strict protection of cryptographic keys. Any compelled disclosure shall require a jury-issued warrant and be recorded on the blockchain for public review, excluding only the key material itself.

Section 7. Of Accountability

1. Judges shall be removed from office upon conviction by Special Citizen Jury of Breach of Oath, corruption, or betrayal of duty.
2. Penalties shall include removal, forfeiture of Bond, restitution, disqualification, imprisonment, or death where loss of life has resulted from betrayal, as provided in Article I.

Section 8. Of Special Cause and Summons

1. The Courts shall hold authority, upon petition of the President or of Congress, to

issue a Special Cause Summons directed only to Citizens under oath of public office.

2. No Denizen shall ever be compelled to answer such summons, nor be drafted into service by judicial writ.

3. The purpose of a Special Cause shall be limited to the defense of the Union, the execution of law, or the safeguarding of Denizens abroad, and shall be subject to strict review upon the blockchain.

4. Any summons issued beyond these limits shall be void, and any judge so acting shall be guilty of Breach of Oath and subject to immediate removal.

Section 9. Of Celestial Law

1. The Union shall establish a body of Celestial Law, distinct from Admiralty, to govern human activity in outer space, upon celestial bodies, and within interplanetary and interstellar domains.

2. Celestial Law shall be founded upon stewardship, sustainability, and species-level responsibility, recognizing that no person, corporation, or nation may claim ownership of space, air, planets, or stars, but only temporary stewardship in trust for all Denizens of Earth and generations unborn.

3. Activities in space — including colonization, tunneling, mining, robotics, artificial intelligence, and energy generation — shall be conducted solely for peaceful purposes and the advancement of humanity as one species.
4. Commerce, navigation, collisions, salvage, and treaties beyond Earth shall be governed by Celestial Law, subject to blockchain ratification and jury review.
5. Any attempt to weaponize space, privatize celestial bodies, or deny stewardship to the People of Earth shall be void and treated as a crime against the Covenant.
6. In all ambiguities of jurisdiction, the presumption shall favor Common Law and the sovereignty of the People.

Section 10. Of Celestial Ethics

The judiciary, in applying Celestial Law, shall be bound to the Sixteen Marks as immutable ethical standards:

Codex of Celestial Ethics

1. Unity of Life

Courts shall recognize that all beings, human and non-human, material and immaterial,

share one life and one Source. Any law or act that denies the interconnectedness of life shall be void. In disputes, unity shall be presumed over separation, stewardship over exploitation, and cooperation over division.

2. Nonviolence

No act of aggression may be justified where peaceful remedy exists. The use of force is permissible only in immediate defense of life. Courts shall judge violence not by authority but by necessity, intent, and proportionality, with presumption always against harm.

3. Sharing of Resources

Resources beyond private labor — including water, air, energy, and celestial matter — shall be held in stewardship for all Denizens. No claim of exclusive possession shall override the common right of sufficiency. Courts shall void monopolies or hoarding that deprive others of access to life's essentials.

4. Reciprocity (the Golden Rule)

In interpreting law and contract, the measure shall be mutuality: no party may demand of another what it would reject for itself. Courts shall examine whether acts honor the dignity of both giver and receiver, voiding any agreement that exploits asymmetry of power.

5. End of Ownership (Stewardship replaces possession)

No Denizen or Citizen shall claim ownership of land, air, water, or celestial bodies; such claims are illusions. Courts shall uphold stewardship, defined as use with responsibility, care with accountability, and return with increase. Possession without stewardship is void.

6. Collaboration over Competition

Courts shall prefer systems and outcomes that foster cooperation over those that entrench rivalry. Where competition threatens common survival (**as in celestial settlements**), law shall require collaboration. No contract or policy designed solely to undermine another shall stand.

7. Truthfulness

Truth is the foundation of justice. Courts shall presume disclosure over secrecy, clarity over deception, and transparency over concealment. Any testimony, record, or act proven false shall void the authority built upon it.

8. Justice without Punishment

Justice shall not be equated with retribution. Courts shall favor restitution, restoration, and healing over penalty. Where harm has been done, the first remedy is to make whole, not to destroy. Punishment is void unless it directly prevents further harm.

9. Embodiment of Compassion

Compassion is the measure of judgment. Courts shall balance law with mercy, and rights with care. Where strict enforcement would yield cruelty, compassion shall prevail, for the law is servant to life, not master.

10. Death as Continuation

Courts shall not treat death as annihilation but as transformation. Rights of the dead — including memory, legacy, and stewardship of remains — shall be honored as continuous. No law shall manipulate fear of death to deprive Denizens of liberty.

11. Defenselessness

Courts shall recognize that ultimate defense is not in arms but in trust. The legitimacy of weaponry is limited to protection of life, never to domination. Aggressive postures, policies, or prosecutions shall be void as breaches of defenselessness.

12. Direct and Honest Communication

Courts shall uphold the right of all Denizens to speak plainly, to hear truthfully, and to be heard without distortion. Contracts, treaties, and judgments must be clear in meaning. Obfuscation or coded duplicity voids consent.

13. Experience over Belief

Courts shall prefer demonstrable lived truth over dogma or imposed belief. No law shall bind Denizens to creed, ideology, or faith, but only to conduct proven by experience to honor life and liberty.

14. Conscious Metaphysics (thought creates reality)

Courts shall acknowledge that thought directs energy and intention shapes matter. Where collective thought has created harm, courts shall favor education and redirection of consciousness over mere sanction. Where conscious creation yields good, courts shall reinforce and protect it.

15. Service, not Rule

Courts shall hold all offices and officers to stewardship, never dominion. Service defines authority; rule without service is usurpation. Any act of power not in service to the People or the Covenant shall be void.

16. The Primacy of Love

Love shall be upheld as the highest principle of judgment. Courts shall measure all acts, laws, and treaties against Love: Does this unite rather than divide? Does this heal rather than harm? Does this lift rather than oppress? Any act failing this test shall be void ab initio, for Love is the eternal covenant of Article XII and the foundation of all law.

1. These Sixteen Marks shall be encoded as binding ethical law for all Denizens and

Citizens engaged in celestial activity.

2. Among them, Love shall be upheld as the highest and unchanging principle, the eternal covenant of Article XII, by which all laws and judgments are measured.

3. What would Love do now?

Book 4 — Community Contribution Enclaves (CCE)

Preamble of the Testament of Elders

Community Contribution Enclaves (CCE) are established as voluntary and restorative communities of labor, learning, and restitution. They exist not to punish, but to transform wrongs into works of value, to provide rehabilitation and training, and to offer Denizens and Nationals alike the means to repay harm, build skills, and contribute to the common welfare.

This Title recognizes a truth older than any statute: when a youth breaks faith with the community, the deepest repair is not made by cages or cruelty, but by **responsibility held in human hands**. Therefore, CCEs are designed to bind restitution to relationship, and labor to learning—so the one who harmed is not merely restrained, but **re-formed**.

Within these Enclaves, a Contributor who has committed a wrong may be directed—by lawful order and measured term—into service that restores life directly, including care, companionship, and work in support of Elders. In this pairing, the young learn what the fast path costs, and the old return what the slow path knows. The Elder becomes a living mirror of consequence and continuity; the youth becomes a living proof that repair is possible. The community receives restitution, the victim receives priority, and the Contributor receives a path back into standing—through skill, service, and steadiness.

All CCE activity shall stand in the light: every hour worked, credit earned, and output produced shall be recorded upon the blockchain, so that restitution remains auditable, terms remain finite, and no human being is turned into property or profit.

The purpose of this Title is restoration, not retribution: to repay harm, rebuild capacity, and weave generations together in dignity—so that crime is not “paid for” in suffering, but answered by **repair**, and replaced by **craft**.

Article 1 — Community Contribution Enclaves (CCE)

Section 1. Definitions

1. **Enclave** – A State-chartered community zone dedicated to work, training, housing, and restitution.
2. **Contributor** – A person assigned to or voluntarily entering a CCE, whether by judgment, contract, or choice.
3. **Restitution** – The repayment of harm done to an individual or the community, satisfied through labor, goods, or service.
4. **Overseer Council** – A rotating council of Citizens, chosen by sortition (**lottery**), to audit fairness, transparency, and safety within each CCE.
5. **Bond of Honor in Enclaves** – The guarantee that every hour, credit, and output within a CCE is transparently accounted for, with priority given to restitution.

Section 2. Principles of CCE

1. **Voluntary by Default** – No Denizen shall be compelled into a CCE except by lawful restitution order or voluntary contract.
2. **Non-Punitive** – CCEs shall not function as prisons, forced labor camps, or mechanisms of punishment. Their purpose is restoration, not retribution.
3. **Transparency** – All credits, outputs, and disbursements shall be published on the blockchain for open inspection.

4. **Community Benefit** – All CCE contributions must serve the General Welfare of Denizens and may not be diverted to private or corporate exploitation.

Section 3. Conditions of Assignment

1. **Restitution Orders** – A court may assign a Contributor to a CCE when:

- a. The Contributor is unable to pay lawful restitution in metals, stones, or currency;
- b. The harm caused demands direct contribution of labor or skill;
- c. The Contributor consents in open court to fulfill obligations through CCE service.

2. **Voluntary Service** – Denizens and Nationals may voluntarily enter CCEs for training, apprenticeship, or additional earnings beyond the Sovereignty Dividend.

3. **Duration** – Assignment shall always be finite and measurable. No Contributor may be held beyond satisfaction of restitution or contract.

Section 4. Rights of Contributors

1. Right to dignity, safety, and humane living conditions equal to minimum State

standards.

2. Right to earn credits, with a portion accruing to personal use beyond restitution owed.
3. Right to release upon completion of obligation, free of stigma or record of criminality.
4. Right to petition for review of conditions before a jury if abuse, coercion, or corruption is alleged.

Section 5. Governance and Oversight

1. **Overseer Councils** – Each CCE shall be monitored by a randomly selected Council of Citizens, rotated quarterly. Their findings shall be published on-chain.
2. **Blockchain Ledger** – Every restitution payment, hour worked, credit earned, and good produced shall be immutably recorded on the blockchain.
3. **Victim Priority** – Restitution flows first to the victim(s) harmed; surplus credits flow to the Contributor and community.
4. **State and Federal Backstop** – Where restitution exceeds the Contributor's

means, State Restitution Funds (**funded by law enforcement Bonds of Honor**) shall guarantee victims are not left without remedy.

Section 6. Safeguards and Prohibitions

1. No Contributor shall ever be bought, sold, transferred, or leased as property.
2. **No indefinite terms:** all obligations must be measurable in hours, goods, or fixed service.
3. **No military use:** CCEs shall never serve martial, paramilitary, or armed purposes.
4. **No corporate exploitation:** Output shall remain within Republic channels and serve only lawful community needs.
5. No forced assignment of children: minors may not be placed in CCEs except voluntarily for education or apprenticeship.

Section 7. Integration with General Welfare

1. States may charter voluntary CCEs for housing, training, production, and civic

works, offering additional credits above the Sovereignty Dividend.

2. CCE participation shall remain voluntary unless entered through lawful restitution order.

3. All wages, credits, and disbursements are by consent and on-chain transparent.

Section 8. Higher Purpose

The Community Contribution Enclaves are the Republic's embodiment of justice without punishment. They restore victims through restitution, uplift contributors through work and learning, and strengthen the Union by transforming harm into community wealth.

Section 9 – Elder Contribution Enclaves (ECEs)

Elder Contribution Enclaves shall be established as a voluntary branch of CCEs, dedicated to the care, dignity, and wisdom of aged Denizens.

Clause 1 – Voluntary Contract.

Any Denizen of advanced age, or of diminished capacity, may enter a written contract with a State, designating the State as custodian for their care. Such

contract shall be voluntary, finite in term, published upon the blockchain, and funded by the Sovereignty Dividend, Endowment, or other benefits of the Denizen. No State may presume such guardianship absent contract or jury finding of incapacity.

Clause 2 – Care and Dignity.

Every ECE shall provide housing, nourishment, medical attention, companionship, and humane conditions equal to or greater than minimum State standards.

Clause 3 – Circle of Wisdom.

Denizens within ECEs shall be honored as Elders of the Republic. They shall be invited and enabled to teach, counsel, and transmit knowledge to Contributors within other CCEs. Such teaching may include life experience, craft, art, or moral counsel, and shall be deemed a contribution to the General Welfare.

Clause 4 – Restorative Integration.

Contributors assigned to CCEs for restitution or apprenticeship shall provide service, companionship, and care to ECE residents as part of their duty. In this way, restitution transforms into service for the living, and the young and old are bound together in dignity.

Clause 5 – Transparency and Oversight.

All contracts, services, and conditions of ECEs shall be published upon the blockchain and audited by Overseer Councils. Any allegation of abuse, neglect, or coercion shall be subject to jury review.

Section 9.1 — Elder Contribution Enclaves (ECEs)

Clause 1 — Intergenerational Stewardship Pairing

- 1. Purpose.** The Republic may establish an Intergenerational Stewardship Pairing within Elder Contribution Enclaves, whereby Contributors assigned to a CCE may render service through the care and support of elder Denizens, and elder Denizens may, by consent, provide mentorship, instruction, and moral counsel. This pairing shall be construed as a restorative practice intended to reduce recidivism by training conscience through lived example, and to increase the dignity and care of elder Denizens through companionship and service.
- 2. Consent and Protection.** No Elder shall be compelled to receive a Contributor, and no Contributor shall be compelled into Elder service absent:
(a) voluntary agreement, or (b) a lawful restitution order specifying such

service with Jury consent. All pairings shall require written consent, shall be finite in term, and shall remain revocable upon complaint by the Elder, the Contributor, or the Overseer Council.

3. **Scope of Service.** Elderly service may include companionship, household assistance, transport, meal support, reading, repair, or other lawful tasks consistent with dignity and safety. No service shall include armed duty, restraint, confinement, or any act resembling detention or punishment.
4. **Mentorship as Contribution.** Elder mentorship—whether instruction in craft, trade, life counsel, or moral teaching—shall be recognized as a contribution to the General Welfare and may be credited on-chain as service rendered by the Elder, without diminishing their rights or benefits.
5. **Safeguards.** The Overseer Council shall audit all pairings quarterly and shall maintain a rapid complaint pathway. Any allegation of abuse, neglect, coercion, or corruption shall trigger immediate review, and where warranted, Jury review.
6. **Measure of Completion.** Where Elder service is ordered as restitution, the term must be measurable in hours, tasks, or service milestones, and shall

terminate upon satisfaction of obligation. No pairing shall be used to extend confinement, prolong assignment, or create indefinite duty.

Section 10 – Court-Ordered Restitution in CCEs

A court of law, upon lawful conviction and with the consent of the jury, may order a Contributor to fulfill restitution through service within a Community Contribution Enclave.

Clause 1 – Scope.

Such service shall be imposed only where restitution in metals, stones, or currency is not possible or where the harm caused is better restored through labor, skill, or service.

Clause 2 – Duration.

All terms of service shall be finite, measurable, and proportionate to the restitution owed. No Contributor may be held beyond the satisfaction of restitution.

Clause 3 – Elder Service.

Contributors may be assigned, by Overseer Council or court order, to provide

service within Elder Contribution Enclaves, where they shall render care, companionship, and respect to elder Denizens. Such service shall be deemed both restitution and civic contribution.

 Clause 4 – Safeguards.

- a. No Contributor shall be compelled into armed service or military use.
- b. No Contributor shall be subjected to conditions below the minimum State standard of dignity and care.
- c. All assignments and hours shall be recorded immutably upon the blockchain.
- d. Overseer Councils shall audit conditions quarterly and publish findings on-chain.

 Clause 5 – Purpose.

The purpose of CCE service is restoration, not punishment. It shall restore victims through restitution, reform Contributors through labor and learning, and strengthen the Union by binding generations together in dignity and wisdom.

Book 5 – Of the Department of Government Efficiency (D.O.G.E.)

 Article 1 — Department of Government Efficiency (D.O.G.E.)

Section 1 – Sovereign Operating System and Network

Clause 1.1 – SovereignOS.

The Department of Government Efficiency (D.O.G.E.) shall design, maintain, and secure a government-exclusive operating system, hereafter “SovereignOS,” for all federal and State officers, courts, and agencies.

SovereignOS shall be compartmentalized, hardened, and integrated with the Union’s sovereign blockchain and domain namespace.

Clause 1.2 – Exclusive Distribution.

SovereignOS and its mobile counterpart shall be installed only on government-issued devices. They shall not be licensed or sold to private parties. All signing keys and update servers shall be held solely by D.O.G.E. under sovereign security.

Clause 1.3 – Sovereign Network Namespace.

The Union shall operate a cryptographically secured domain namespace, rooted in keys held solely by D.O.G.E., within which all official systems, ledgers, and portals shall reside. Public mirrors may be provided for Denizen access, but the sovereign namespace shall be the single source of truth.

Clause 1.4 – Device Identity and Control.

Each government device shall carry a cryptographic identity anchored to the blockchain. Lost or compromised devices shall be revocable by D.O.G.E. instantaneously.

Clause 1.5 – Integration with Immigration and PCA Systems.

SovereignOS shall natively host the Cohort Admission Protocol (CAP), PCA auctions, judicial dashboards, Treasury ledgers, and all other core systems of the Union, ensuring scale and security in immigration and governance.

Clause 1.6 – Support and Onboarding.

D.O.G.E. shall provide technical support, updates, training, and standard operating procedures (SOPs) to every officer of the Union, ensuring efficient onboarding and secure use of SovereignOS.

Clause 1.7 – National Security.

No private or foreign entity shall hold root keys or update channels of SovereignOS or the sovereign namespace. Breach or attempted compromise shall constitute Treason under this Constitution.

Clause 1.8 – Quantum Distribution Node.

The Department of Government Efficiency (D.O.G.E.) shall operate a sovereign quantum computer, used solely for the purpose of optimizing network distribution, cryptographic throughput, and bandwidth of the Union's SovereignOS, blockchain, and namespace.

- a. The quantum system shall function as a distribution accelerator, comparable to a sovereign content delivery network (CDN), ensuring speed and access for all States and Denizens.
- b. Such system shall never be employed for surveillance, prediction of Denizen behavior, or alteration of records, but only for lawful distribution, redundancy, and bandwidth efficiency.
- c. All quantum processes shall be logged and hashed to the blockchain, subject to audit by independent State panels under D.O.G.E. oversight.

Section 2 – Government-Issued Shell Devices and Stateless Endpoints

Clause 2.1 – Shell Device Principle.

All government-issued computing devices (phones, laptops, tablets, terminals) shall be issued as stateless shell devices. No persistent records or sovereign data shall be stored in cleartext upon such devices. All official systems and records shall execute within SovereignOS server domains and ephemeral workspaces under the control of D.O.G.E.

Clause 2.2 – Hardware Root of Trust.

Each shell device shall contain a secure element and device attestation certificate anchored to the blockchain. Devices without valid on-chain attestation shall be refused service.

Clause 2.3 – Provisioning and Binding.

Devices shall be provisioned and cryptographically bound to an officer's identity only after on-chain verification and multi-party authorization. Reprovisioning requires a new binding ceremony recorded on-chain.

Clause 2.4 – Ephemeral Sessions.

All interactions shall occur within ephemeral workspaces. Session artifacts shall be encrypted and volatile; no government data shall persist on the physical device beyond session end, except where narrowly authorized for mission needs.

Clause 2.5 – Revocation and Kill-Switch.

D.O.G.E. shall maintain an on-chain device-revocation registry. Lost or compromised devices shall be revoked immediately, and remote erase commands may be executed only after multi-party authorization.

Clause 2.6 – Audit and Transparency.

All provisioning, session start, session end, revocation, and reprovisioning events shall be logged and hashed to the blockchain for public audit.

Clause 2.7 – Privacy and Exceptions.

Use of sensors, recordings, or cached data on shell devices shall be subject to privacy

protections and warrants where required by law. Emergency exceptions shall require immediate on-chain notice and post-facto judicial review.

Clause 2.8 – Supply-Chain Integrity.

All devices shall be manufactured and procured under sovereign supply-chain rules verified by D.O.G.E., ensuring protection against hardware compromise.

Clause 2.9 – Integration.

The shell-device regime shall integrate with SovereignOS, the sovereign namespace, the Cohort Admission Protocol, PCA contracts, judicial dashboards, and Treasury ledgers.

Section 3 – Creative and Technical Authority of D.O.G.E.

Clause 3.1 – Software Stewardship.

D.O.G.E. shall design, maintain, and secure all government-exclusive software required for operation of this Constitution, including immigration workflows, fiscal management, onboarding of officers, law drafting, and blockchain governance.

Clause 3.2 – National Security.

Such systems shall remain proprietary to the Union and unavailable to private parties, ensuring sovereign control and data security.

Clause 3.3 – Technical Support.

D.O.G.E. shall serve as the sole technical support and systems-maintenance body for the Union, resolving bugs, inefficiencies, and errors in government software.

Clause 3.4 – Process Design.

D.O.G.E. shall author and publish SOPs for officers of Congress, Judiciary, and Executive, ensuring efficient onboarding and uniform practice.

Clause 3.5 – Immigration Systems.

D.O.G.E. shall design and operate the systems for the Cohort Admission Protocol (CAP), including applicant intake, PCA templating, judicial dashboards, capacity modeling, and compliance tracking. Technical abstracts shall be published upon the blockchain, with full internal code maintained under sovereign security.

Section 4 – Of Oversight and Audits of D.O.G.E.

Clause 4.1 – Blockchain as Record.

All systems, updates, revocations, quantum operations, and namespace actions of D.O.G.E. shall be immutably logged upon the Union Blockchain. No action of D.O.G.E. shall be valid unless recorded and hashed upon said chain.

Clause 4.2 – State Auditors.

Each State shall appoint or elect independent auditors, who shall have continuous right of access to DOGE's published logs, hashes, and technical abstracts. State Auditors shall publish quarterly reports upon the Blockchain for the review of all Denizens.

Clause 4.3 – Governor's Emergency Audit.

The Governor of any State may, by executive order, call for a seventy-two (**72**) hour emergency audit of any DOGE system, update, or process. During such period, the system or update shall be frozen, with no effect, until the audit concludes.

Clause 4.4 – Audit Process.

Emergency audits shall be conducted by a panel composed of:

- a. The State's appointed auditors;
- b. Three (**3**) randomly selected State auditors from other States by blockchain lottery;
- c. One (**1**) Citizen Jury convened in the initiating State.

Clause 4.5 – Transparency of Audit.

All findings of emergency audits shall be published upon the blockchain within twenty-four (24) hours of conclusion, with full technical data, logs, and recommendations for action or correction.

Clause 4.6 – Breach and Forfeiture.

Should D.O.G.E. be found to have acted outside its constitutional bounds or falsified blockchain records, its officers shall be guilty of Breach of Oath, and their Bonds forfeited in full.

Clause 4.7 – Classified Records Exception.

Where the publication of DOGE records would endanger the lives of Denizens, compromise active military or militia operations, or reveal sovereign cryptographic

keys, such records may be redacted from public blockchain entry.

Clause 4.8 – Sealed Audit Ledger.

All classified records shall be entered into a Sealed Ledger, cryptographically anchored to the blockchain, but viewable only by:

- a. The initiating State Governor and its auditors,
- b. Three (**3**) randomly selected Governors by blockchain lottery,
- c. A Citizen Jury drawn under oath of secrecy.

The public blockchain shall show a timestamped hash of the sealed record, so that its existence and integrity remain provable, even if the contents are restricted.

Clause 4.9 – Sunset of Secrecy.

No classified record may remain sealed beyond five (5) years, unless re-certified annually by a Citizen Jury of seven (**7**) randomly drawn Denizens. After twenty (**20**) years, all sealed records must be declassified and published in full upon the blockchain.

Clause 4.10 – Abuse of Classification.

Any officer of DOGE or State auditor found to have wrongfully classified material for the purpose of concealing corruption, inefficiency, or unlawful acts shall be guilty of Breach of Oath and forfeit all Bonds.

SECTION 4 — ABADDON’S ABEYANCE

Abaddon’s Abeyance functions as the constitutional release valve necessitated by Title I’s unanimity requirement, preserving textual integrity while preventing systemic collapse.

1. Purpose

Abaddon’s Abeyance is a technical, Denizen-controlled mechanism permitting the temporary suspension of a constitutional clause when strict enforcement of that clause produces a systemic failure of Functionality as defined in Title I.

The original clause remains written, valid, and unsullied. This mechanism allows the Constitution to breathe without bending.

Abaddon’s Abeyance is not interpretation. It is not amendment. It is not destruction. It is the lawful Sabbath or pause of a clause until the People repair it.

2. Authority to Initiate

Initiation belongs exclusively to the Department of Government Efficiency (**D.O.G.E.**). D.O.G.E. may initiate Abaddon's Abeyance only upon issuing a Systems-Strain Report, certifying that:

1. A constitutional clause is generating catastrophic procedural failure.
2. LAR measurements, systemic data, or audit logs confirm a structural malfunction.
3. All lesser remedies have been exhausted or are insufficient.

D.O.G.E.'s role is technical, not interpretive. Judicial verification shall be limited to objective, data-defined measures of systemic failure, including but not limited to LAR decay, gridlock indices, procedural deadlock thresholds, or other quantifiable indicators established by D.O.G.E.

3. Senate Concurrence Requirement

No proposal for Abeyance shall advance unless the Senate concurs by a two-thirds majority that the malfunction constitutes a legitimate constitutional crisis requiring temporary suspension.

This concurrence ensures that no non-elected body may unilaterally set the national agenda. If concurrence fails, the proposal dies.

3A. Senate Drafting Mandate

After Supreme Court verification, the Senate shall draft the corrective law or

permanent amendment, informed by D.O.G.E.'s Systems-Strain Report. The Senate must finalize its draft within 180 days.

4. Judicial Verification (*Non-Interpretive*)

Upon Senate concurrence, the Supreme Court shall perform a mechanical verification of the Systems-Strain Report.

The Court shall:

- confirm the data is authentic,
 - confirm the malfunction conflicts with Title I: Functionality,
 - confirm D.O.G.E. followed all technical protocols,
- ...but shall not interpret the meaning, intent, or implications of the clause.

5. Eligibility Requirement (High-LAR Safeguard)

A clause may not be proposed for Abaddon's Abeyance unless its Law Approval Rating (**LAR**) is 80% or higher.

This safeguard ensures Abeyance is used only for genuine system-breaking conflicts, not political disputes.

6. Ratification by the Denizens

If verified and concurred, the question shall proceed to a National Functionality Referendum, requiring a 80% Denizen supermajority blockchain vote to activate Abaddon's Abeyance.

The vote is binding. If approval fails, the clause remains fully active.

7. Effect of Abeyance

Upon approval:

1. The clause enters Abeyance, rendered non-operative.
2. The clause remains written, valid, and untouched.
3. No branch or officer may rely on or enforce it.
4. No interpretation of the clause may be issued.
5. All other constitutional clauses remain in full effect.

Abeyance is dormancy, not deletion.

8. Duration and Renewal

1. Each Abeyance may last a maximum of five (5) years.

2. Renewal requires the full initiation process, including D.O.G.E., Senate, Supreme Court, and Denizenry.

3. No clause may remain in cumulative Abeyance longer than fifteen (**15**) years without a formal amendment.

9. Mandatory Amendment Clock

Activation of Abaddon's Abeyance automatically initiates a Constitutional Amendment Cycle for the suspended clause.

Upon verification:

- the Senate drafts the permanent corrective amendment or statutory repair proposal,
- D.O.G.E. supplies all required technical data, structural options, comparative analysis, and a Functionality Impact Report.

The Denizens shall vote on the proposed amendment.

If the Senate fails to draft, or the Denizens fail to ratify, the amendment within five (5) years, the original clause returns to full force automatically.

10. LAR and Nullification

Abaddon's Abeyance itself is treated as a constitutional law for LAR purposes.

Therefore:

- It receives its own LAR.
- Jurors may nullify it.
- Denizens may override it.
- If its LAR falls below 50%, the Abeyance collapses and the original clause reactivates immediately.

11. Immovable Constitutional Domains (*Prohibitions*)

Section 11A: Reciprocal Abeyance Requirement

Any Abeyance of a denizen protection must be accompanied by an equal and opposite restorative action, enacted immediately, preserving cosmic coherence and ensuring restitution for any affected Denizens.

Abaddon's Abeyance may never be applied to the following four domains, which constitute the Immutable Core of the SSA:

A. Cosmological Foundations

1. Article Zero
2. Title Twelve (Cosmic Ethical Supremacy)
3. The Sixteen Celestial Ethical Marks
4. The Judicial Primacy of Love
- B. Sovereignty Foundations
5. The Denizen Sovereignty Clause
6. The Right of Withdrawal or Secession
7. Jury Nullification and Denizen Override Powers

C. Rights Foundations

8. The Right to Life

9. The Right to Liberty

10. The Right to Stewardship of One's Possessions

11. The Right to Bodily Integrity

12. The Right to Due Process

13. The Right to Free Thought, Speech, and Conscience

14. The Right to Self-Defense

D. Structural Foundations

15. The Constitutional Amendment Engine

16. The LAR / Public Legitimacy System

17. Transparency Mandates

18. The National Blockchain Record System

If a clause defines:

- what the Constitution is,
- who the sovereign is,
- what a Denizen is, or
- how legitimacy is measured, it may not enter Abeyance.

12. Restoration

When Abeyance ends—by expiration, LAR collapse, judicial verification failure, or amendment ratification—the original clause reactivates instantly, without

reinterpretation or legislation.

13. Nature of the Mechanism

Abaddon's Abeyance:

- does not alter constitutional text,
- does not grant interpretive authority,
- does not expand judicial power,
- does not reduce Denizen sovereignty,
- does not weaken the metaphysical core.

It is a technical suspension that protects the Constitution from internal fracture while honoring every word of the original covenant.

Section 5 – The Quantum Functional Analysis Engine (QFAE)

1. Establishment

The Department of Government Efficiency (**D.O.G.E.**) shall maintain, operate, and secure the Quantum Functional Analysis Engine (**QFAE**), an artificial-intelligence-enhanced quantum system responsible for constitutional

diagnostics and predictive system modeling.

2. Purpose of the QFAE

The QFAE exists to:

- a. model constitutional dynamics, legitimacy flows, and systemic feedback loops;
- b. detect emergent structural failures relevant to Title I: Functionality;
- c. forecast potential constitutional or governmental collapse scenarios;
- d. simulate the effects of constitutional clauses, statutes, or proposed amendments; e. provide technical analysis necessary for Abaddon's Abeyance and related processes.

3. Diagnostic Authority

The QFAE shall perform continuous, transparent analysis of:

- a. LAR decay and legitimacy trajectories;
- b. legislative gridlock indices;
- c. feedback instability in governmental operations;

- d. conflict detection between clauses, titles, or functional systems;
- e. predicted system stress exceeding tolerable thresholds defined by Title I.

These diagnostics shall be non-interpretive, technical, and publicly auditable.

4. Simulation Authority

The QFAE is authorized to run simulations necessary to:

- a. predict the systemic impact of enforcing a constitutional clause;
- b. evaluate the functional consequence of draft amendments;
- c. determine the restorative balance required under the Reciprocal Abeyance Requirement restorative calculations;
- d. test the long-term coherence of constitutional structures;
- e. model potential future governance failures and their root causes.

All simulation outputs must be logged on the National Blockchain.

5. Systems-Strain Data Production

The QFAE shall generate the raw diagnostic data and predictive metrics used by

D.O.G.E. to create the Systems-Strain Report required to initiate Abaddon's Abeyance. The QFAE may not issue conclusions, interpretations, or recommendations; it may only output technical findings and quantifiable indicators.

6. Transparency and Auditability

All QFAE analyses shall be:

- a. fully transparent;
- b. accessible to the Denizenry;
- c. recorded immutably on the National Blockchain;
- d. subject to cross-validation by independent state auditors;
- e. available to the Supreme Court for mechanical verification.

7. Constitutional Boundaries

The QFAE:

- shall not interpret the Constitution;

- shall not propose amendments;
- shall not determine desirability, morality, or policy preference;
- shall not act outside technical analysis;
- shall never replace judicial, legislative, or Denizen authority.

Its function is purely diagnostic and predictive.

8. Integration with Abaddon's Abeyance

The QFAE's outputs serve as the foundational data for:

- a. DOGE's Systems-Strain Report;
- b. Supreme Court mechanical verification;
- c. Senate concurrence evaluation;
- d. the Reciprocal Abeyance Requirement restorative calculations;
- e. Denizen deliberation during the Abeyance referendum.

The QFAE is the Constitution's systemic awareness, not its will.

Book 6 – Of the States and the Union

Article 1 — Of the States and the Union

Section 1. Of Sovereignty of the States

 1. Each State of the Union shall remain sovereign within its borders, retaining all powers not expressly delegated to the Federal Government by this Constitution.

 2. The Federal Government shall exist only as servant and steward of the several States, deriving its wealth and resources from their pledges, and returning to them protection, coordination, and general welfare.

Section 2. Of the Quad-Monterey System

 1. Each State shall maintain its economy upon the honest standards of gold, silver, copper, and precious stones — such as granite, marble, jade, quartz, and others of recognized and certified value — which together shall serve as the lawful tender of exchange. Precious stones shall be standardized by weight, type, and certification, with each unit recorded on the public blockchain ledger for transparency and to prevent fraud or manipulation.

 2. The Federal Government shall operate upon United States Certificates, redeemable against the pledged metals and resources of the several States.

 3. Each State may pledge resources — including but not limited to metals, precious stones, land, timber, oil, technology, and agricultural goods — to the Federal Government in exchange for United States Certificates.

 4. No State shall issue paper currency of its own; no fiat substitutes shall be permitted.

Section 3. Of Pledges to the Union

 1. Each State may pledge resources — including but not limited to metals, land, timber, oil, technology, and agricultural goods — to the Federal Government in exchange for United States Certificates.

 2. Such pledged resources shall be recorded upon the blockchain, and may be recalled or renewed at intervals fixed by State law.

 3. The Federal Government shall not compel pledges, but may request them in times of war, disaster, or emergency, subject always to blockchain transparency.

Section 4. Of Relations Between States

-  1. Full faith and credit shall be given in each State to the public acts, records, and judicial proceedings of every other State, subject to review on the blockchain.
-  2. Denizens of each State shall be entitled to all privileges and immunities of denizens in the several States.
-  3. Fugitives from justice shall be delivered up on blockchain warrant to the State having jurisdiction of the crime.
-  4. Ban on Parens Patriae and Wardship by Contract Only No State shall invoke or enforce the doctrine of Parens Patriae, nor claim parental, custodial, or protective sovereignty over any Denizen or their offspring.

The natural family, or guardians lawfully appointed by will or private contract, shall retain primary stewardship of children and dependents.

A Denizen, or the lawful parents or guardians of a minor, may by written contract designate a State or agency as temporary custodian or guardian. Such contract must be voluntary, finite in term, subject to jury review for fraud or coercion, and published upon the

blockchain for transparency.

In cases where no such contract exists, custodial authority may be imposed only upon jury finding of specific harm, incapacity, or fraud, and shall extend no further than remedy of the proven wrong. No presumption of State guardianship shall arise from residence, travel, or relation between States.

Section 5 – Digital Sovereignty

 States shall recognize private digital domains as extensions of Denizen sovereignty.

 Inter-state treaties, shared infrastructure agreements, and federations of private domains shall be recorded on the Union blockchain.

 No State shall compel access to another State's or Denizen's digital domain without voluntary consent.

Section 5. Of Admission of New States

 1. New States may be admitted into this Union upon blockchain ratification by two-thirds of the existing States.

 2. No new State shall be formed within the jurisdiction of another, nor by the junction of two or more States, without consent of the legislatures of the States concerned as well as blockchain ratification by Congress.

 3. Territories seeking admission shall first establish a vault and pledge system based on gold, silver, copper, and precious stones as a condition of entry.

Section 6. Of Secession

 1. Any State may withdraw from this Union upon blockchain ratification by two-thirds of its denizens, followed by notice to Congress and the several States.

 2. Upon secession, all pledged resources shall be returned, all obligations settled, and peaceful separation ensured.

 3. No State in active rebellion or engaged in foreign war may secede until peace is restored.

Section 7. Of Republican Government

 1. The United States shall guarantee to every State in this Union a republican form of

government, founded upon blockchain transparency, jury trial, and quad-metal honesty.

 2. The United States shall protect each State against invasion, and upon application of the legislature or executive, against domestic violence.

Clause 7.3 – Universal Access to Civic Tools

Each State shall guarantee that every Denizen has free and equal access to the blockchain governance systems established under this Constitution, including but not limited to:

1. Interaction with Law Language Models (**LLMs**).
2. Viewing and participation in live public sessions held by Representatives and Senators.
3. Secure voting portals and blockchain participation tools.

Public Terminals and Devices:

States shall provide open terminals in public houses, libraries, and community centers for Denizens without personal devices.

Simplified, low-cost devices shall be provided to elderly, disabled, or low-literacy Denizens at no charge, ensuring no one is excluded by poverty or circumstance.

Language and Accessibility:

States shall ensure multilingual interfaces and accessibility accommodations in every official public terminal, including voice-based interfaces for the visually impaired and educational materials for the untrained.

Enforcement:

The Department of Government Efficiency (**D.O.G.E.**) shall audit State compliance quarterly.

Failure to meet minimum access standards shall automatically trigger withholding of a portion of the State's federal revenue distribution until compliance is restored.

Immutable Record:

All access points, audits, and compliance reports shall be published on the blockchain for public review.

Section 8. Of Balance Among the States

 1. No State shall lay any tariff, duty, or impost upon the goods of another State; all tariffs shall apply only to foreign commerce.

 2. All pledges made by any State to the Union shall be distributed in equal value of

United States Certificates across all States, in proportion to their needs as determined by blockchain record.

 3. Disputes between States shall be judged by a Special Interstate Tribunal, composed of citizen jurors drawn from three States not party to the controversy, whose verdict shall be binding.

 4. No State shall enter into any treaty, alliance, or compact with a foreign power, nor maintain standing armies beyond its militia except by consent of Congress and blockchain ratification.

 5. Each year, one State chosen by blockchain lottery shall serve as Auditor of the Union Ledger, verifying the vault holdings of all States and publishing the results upon the blockchain.

Section 6 – Civic Infrastructure Trusts and Smart Feedback Loops

Commons Utilities Declared. Roads, bridges, waterworks, sewage systems, electric distribution grids, public transit lines, and telecommunications backbones shall be recognized as Civic Infrastructure Trusts (**CITs**) of each State. These backbones shall be stewarded as shared commons for all Denizens, with private providers permitted to operate upon them only through

fair, transparent leases recorded upon the blockchain.

Continuous Monitoring. Each State shall maintain a Live Health Radar of its CIT assets. Surfaces may be coated with smart sensor technologies—including self-healing and energy-harvesting paints, nanocomposites, or equivalent systems—that measure stress, decay, and safety in real time. Such telemetry shall be collected by SovereignOS through the Civic Infrastructure Observability (**CIO**) module and published openly upon the blockchain.

Automated Maintenance Orders. Whenever a CIT asset falls below defined thresholds, SovereignOS shall generate a Maintenance Order Hash with mandatory deadlines:

Class A hazard (**immediate safety risk**): repair or secure within seventy-two (**72**) hours.

Class B defect (**functional degradation**): repair within fourteen (**14**) days.

Class C routine wear: repair within ninety (**90**) days.

All orders shall be funded from the State's Infinite Banking Treasury (**IBT**) and repaid thereto with interest.

Enforcement and Penalties. Failure to complete a Maintenance Order within the prescribed window shall trigger automatic restitution: a fine debited from the State's IBT into the Union's General Welfare Pool. Such penalties shall be published on-chain, together with the order, its status, and all evidence of completion.

Gamified Incentives.

States may establish performance scores for maintenance crews, awarding bonuses from IBT interest for early, efficient, and high-quality completions. Performance results shall be published on-chain, forming public leaderboards open to audit by all Denizens.

Citizen Co-Sensing. Denizens may report hazards through State systems. Verified reports shall earn automatic bounties from the maintenance pool. False or malicious reports may be penalized only upon jury review.

Redundancy and Audit. Each State shall supplement surface telemetry with periodic aerial scans, structural probes, and jury audits, ensuring no decay escapes review. D.O.G.E. shall audit all telemetry pipelines for accuracy, neutrality, and integrity.

Alignment with Higher Laws. All CIT stewardship shall be conducted in accordance with Functionality, Adaptability, Sustainability, and the Primacy of Love, ensuring that infrastructure not only functions but also heals, renews, and uplifts the Denizens it serves.

Clause 7 – Auxiliary Stewardship.

While the stewardship of Civic Infrastructure Trusts remains the permanent duty of each State, nothing in this Section shall forbid a State from contracting with higher-order Private Membership Associations (**PMAs**) or Private Contract Associations (**PCAs**) for maintenance, repair, or innovation of such Trusts.

All such contracts shall:

- a. Be immutably published upon the blockchain;
- b. Preserve transparency, equal access, and jury review;
- c. Never diminish the State's primary accountability for safe and functional infrastructure;
- d. Subject the PMA/PCA contractor to the same audit and penalty provisions as the State, proportionate to its role.

In this way, Denizens and their associations may share in the stewardship of the commons, while the State remains bound as guarantor of Functionality, Adaptability, Sustainability, and the Primacy of Love.

Clause 8 – Passive Income Stewardship.

States may create, own, or lease functional monopoly assets — whether permanent or temporary — provided that:

- a. Such assets serve the General Welfare (**infrastructure, utilities, civic works**);
- b. All leases, revenues, and contracts are immutably recorded on the blockchain;
- c. All returns flow into the State's Infinite Banking Treasury (**IBT**), to be repaid with interest and preserved as compounding wealth;
- d. No such contract may relieve the State of its primary duty of stewardship and

maintenance of Civic Infrastructure Trusts.

In this way, States may transform their stewardship of infrastructure into a self-replenishing source of passive income, ensuring that the commons not only sustains itself but multiplies its strength for future generations.

Section 9. Of State Treasuries and Denizen Property

 1. Each State shall maintain an Infinite Banking Treasury, into which shall flow the following revenues only:

- a. Excise taxes upon goods and services sold within the State;
- b. Lotteries, raffles, and other voluntary games of chance authorized by the State;
- c. Federal grants, provided such grants impose no obligation of repayment;
- d. Voluntary pledges and endowments by denizens or trusts.

 2. The Infinite Banking Treasury shall be perpetual, and all funds deposited therein shall be managed upon the principle of compounding return:

- a. When the State requires funds for public works, defense, infrastructure, education, or welfare, it shall borrow from its own Treasury;

- b. All such loans shall be repaid with interest into the Treasury, increasing its strength and capacity;
- c. Interest shall never be extracted by external creditors, but shall circulate back into the wealth of the State.

3. Prohibited Taxes.

- a. No State shall impose income taxes upon the labor of its denizens;
- b. No State shall impose property taxes or ad valorem taxes upon the lands or possessions of its denizens;
- c. No perpetual lien shall attach to the home, land, or substance of any denizen, save in cases of voluntary contract.

4. Allodial Title.

- a. All land held by denizens within the several States shall be held in allodial title, free from feudal dues, perpetual rents, mortgages of law, or involuntary encumbrance;
- b. Such land shall not be seized, taxed, or levied by the State, save by lawful jury trial for cases of proven crime or voluntary contract default;
- c. Allodial title shall be inheritable and transferable by will, gift, or contract, and shall

remain the inviolable possession of denizens alone.

 5. Transparency. Quarterly blockchain reports shall disclose all revenues, loans, repayments, and interest earnings of each State Treasury, open for inspection by every denizen.

Section 10. Of Federal Revenues

 1. The Federal Government shall be funded solely by the revenue it generates through lawful tariffs, imposts, service fees, leases, and contracts with foreign powers.

 2. A progressive income tax shall be levied upon the total net income of the Federal Government, with brackets rising as revenue increases. The proceeds shall be distributed quarterly to the several States, in proportion to their populations or as otherwise fixed by blockchain law. The income tax levied upon the Federal Government shall not be construed as a tax upon denizens or States, but as a condition of the Federal Government's continued existence as servant of the Union. Such tax shall be regarded as a compulsory distribution of federal revenue to the several States, progressive in rate according to revenue, and perpetual in enforcement.

 3. At no time shall the Federal Government levy taxes, duties, or imposts directly upon the denizens of the Union.

 4. Independent State Auditors, chosen by blockchain lottery, shall verify all federal accounts and enforce compliance. Failure to pay shall authorize the several States to freeze federal assets or contracts within their borders until restitution is made.

 5. The intent of this system is to ensure that the Federal Government, as steward and servant of the Union, bears the cost of its own existence and never burdens the denizens with tribute.

Section 2 – Progressive Federal Income Tax

 1. A progressive income tax shall be levied solely upon the net income of the Federal Government, after lawful obligations and operations have been satisfied.

 2. This tax shall not be construed as a tax upon Denizens, Nationals, or States, but as a compulsory redistribution of federal surplus back into the Union.

Clause 2.1 – Tax Brackets & Allocations

Federal revenues shall be taxed progressively in the following brackets, with each bracket's yield allocated to designated purposes:

1% – 20% → Sovereignty & Republic Preservation Fund (**constitutional compliance,**

sovereignty defense, and baseline civic tools).

15% – 25% → State Cashback Categories (**rotating grant programs defined by States, such as biotech safety, energy resilience, disaster mitigation, or civic research**).

25% – 50% → Sovereignty Dividend & Denizen Programs (**universal dividend distributions, Sovereignty Endowment “25 at 25,” and Denizen Debt Relief**).

45% – 70% → Infrastructure & Union Emergency Reserve (**CCE capacity, interstate projects, disaster relief pools, and emergency cash reserves**).

80% – 90% → Surplus Allocation & Global Tithe (**USAF + ISSF surpluses, with a tithe dedicated to the Storehouse of Nations for international stewardship**).

90%+ → Automatic Bond of Honor Insurance (**ensuring officer bonds and citizen juries are fully collateralized before any further revenue is held by the Union**).

Clause 2.2 – Rotating Cashback Categories

a. Each biennial session, the States shall designate categories for the 15%–25% bracket (**e.g., biotech safety, cybersecurity, space stewardship, climate research, youth**

apprenticeships).

b. The Federal Government may choose spending priorities within those categories but may not divert funds outside them.

c. These allocations shall serve as an indirect state referendum on federal focus, ensuring balance between federal initiative and state sovereignty.

Clause 2.3 – Budget Reset Rule

At the opening of each new Congress, the Federal budget shall reset to the sum of all Bonds of Honor pledged by officers. All unspent revenue is swept into the Surplus Allocation Funds, and the progressive brackets reset anew.

Clause 2.3.1 — Of the Budget Reset and Bond of Honor

Section 1 — Purpose of the Budget Reset

The Budget Reset exists to establish a permanent, predictable, and non-inflationary fiscal foundation for the Sovereign States of America. It shall operate not through debt, borrowing, or fiat issuance, but through bonded honor, lawful stewardship, and compounded surplus.

Section 2 — Unit of Measure

All Bonds of Honor shall be denominated in silver-equivalent ounces, measured under the SSA quad-metal standard. These bonds are collateralized instruments of accountability and fiduciary gravity, not currency, salary, or disposable funds.

Section 3 — Fixed Constitutional Bond Base

The Constitutional Bond Base is hereby fixed and shall reset identically at the beginning of each Budget Reset cycle, without alteration by population growth, political expansion, or administrative convenience.

The Constitutional Bond Base shall consist of the following:

- **Legislative Branch (103 Members Total)**
 - House of Representatives (**60**): \$1,000 oz each → \$60,000 oz
 - Senate (**40**): \$2,000 oz each → \$80,000 oz
 - At-Large Delegates (**3**): \$1,000 oz each → \$3,000 oz
- ✓ **Legislative subtotal: \$143,000 oz**

- Executive Branch

- President: \$10,000 oz

- Vice President: \$5,000 oz

- ✓ Executive subtotal: \$15,000 oz

- Judicial Branch

- Supreme Court: 9 Justices $\times$ \$15,000 oz = \$135,000 oz

- Inferior Judiciary: \$408 Judges $\times$ 10,000 oz = \$4,080,000 oz

- ✓ Judicial subtotal: \$4,215,000 oz

Total Constitutional Bond Base:

- ✓ \$4,373,000 oz silver-equivalent

Section 4 — Civilian Federal Service Bond Base

The SSA hereby establishes a permanent authorized civilian federal service cap of 500,000 positions, inclusive of all non-military federal employees, officers, and staff.

No uniformed military, guard, or reserve service shall be included in this cap or bond base. Civilian positions shall be classified by authority, access, and discretionary power, and bonded accordingly:

- Class E1 — General Staff: $300,000 \times \$10 \text{ oz} = \$3,000,000 \text{ oz}$
- Class E2 — Skilled / Technical: $120,000 \times \$25 \text{ oz} = \$3,000,000 \text{ oz}$
- Class E3 — Supervisory: $60,000 \times 50 \text{ oz} = \$3,000,000 \text{ oz}$
- Class E4 — Managerial: $15,000 \times 200 \text{ oz} = \$3,000,000 \text{ oz}$
- Class E5 — High-Trust Gatekeepers: $4,000 \times \$500 \text{ oz} = \$2,000,000 \text{ oz}$
- Class E6 — Senior Executive Service: $900 \times \$1,000 \text{ oz} = \$900,000 \text{ oz}$
- Class E7 — Agency Heads (Civilian): $25 \times \$2,500 \text{ oz} = \$62,500 \text{ oz}$

Total Civilian Federal Bond Base:

 **\$14,962,500** oz silver-equivalent

Section 5 — Total Budget Reset Bond Base

The Total SSA Budget Reset Bond Base is hereby fixed at:

 **\$19,335,500** oz silver-equivalent

This amount shall reset identically at each Budget Reset cycle and shall not be altered except through constitutional amendment under the SSA's highest amendment threshold.

Section 6 — Use, Compounding, and Stewardship

- The Bond Base shall not be spent, consumed, pledged as debt, or diluted.
- It shall serve as a fiduciary endowment, enabling lawful yield, productivity compounding, surplus generation, and dividend distribution.
- All growth shall arise from stewardship, efficiency, trade, and lawful surplus — never from inflation or borrowing.
- Breach of oath, dishonor, or malfeasance shall invoke bond forfeiture or penalty as defined elsewhere in this Constitution.

Section 7 — Continuity Clause

This fixed Bond Base ensures that every new Congress, administration, and judiciary begins with the same fiscal gravity, allowing immediate continuity of governance, long-range planning, and intergenerational stability.

No future body may claim uncertainty as justification for expansion, delay, or deficit.

Clause 2.4 – Dedicated Funding for Access

A portion of every State's federal revenue share shall be earmarked exclusively for:

1. Maintaining public access terminals.
2. Supporting free device programs for elderly and disabled Denizens.
3. Staffing and maintaining multilingual support services.

Transparency:

Expenditures under this Clause shall be logged in real time on the blockchain, showing amounts spent, locations served, and population coverage.

No other use of these funds shall be permitted without blockchain ratification by the People

of the State.

Section 11 — Bond of Honor and Restitution for Officers of Law Enforcement

The office of law enforcement shall exist not to punish, but to embody Justice. Justice, under this Constitution, is not vengeance after an act, but the living choice of fairness, balance, and compassion in the moment of action. Every Officer is therefore required to act as a transparent demonstration of Justice to the Denizens, without fear of consequence when acting in fidelity to this principle. In harmony with Title 12, which teaches that there is no “right or wrong” imposed by heaven, Justice shall not be measured by later punishment, but by present integrity. Thus, law enforcement shall be the Republic’s daily inspiration, not degradation, proving by every action that Justice is alive.

Section 11.1. Purpose.

The office of law enforcement carries the sovereign power of force. To preserve trust, prevent abuse, and ensure justice, every Officer shall be bound by a Bond of Honor. This Bond is unlike all others: it does not pay out in currency, but stands as a pledge of the Officer’s life, labor, and wages to answer for harms caused by misconduct or incapacity.

Section 11.2. Bond of Honor.

- (a) Each Officer of Law Enforcement shall pledge and maintain a Bond of Honor equal to forty percent (**40%**) of their annual salary.
- (b) The Bond shall not be payable in cash, nor dischargeable through insurance, indemnity, bankruptcy, or act of the State.
- (c) The Bond binds the Officer's personal assets, labor, and life to the restitution of victims, and shall remain in force as long as the Officer holds authority.

Section 11.3. Restitution and Removal.

- (a) If an Officer is found not capable of serving lawfully and safely, they shall be removed from office, permanently decertified, and owe restitution to any victim of their acts.
- (b) Restitution shall be satisfied in the following order:

 1. Seizure of the Officer's personal assets;
 2. Assignment of the Officer's labor, valued fairly, to the victim until restitution is paid;

3. Wage garnishment from future earnings in any occupation.

(c) An Officer found not capable shall not return to service in any State except by unanimous approval of an independent certification board after public hearing.

Section 11.4. Restitution Fund.

(a) A Restitution Fund shall be maintained in each State, composed of payroll deductions from all active Officers of Law Enforcement.

(b) The Fund shall provide immediate relief to victims when restitution cannot be immediately satisfied by the guilty Officer.

(c) Payments from the Fund do not release the Officer from personal obligation. The Officer shall remain indebted to the Fund until repayment is made through assets, labor, or garnishment.

Section 11.5. Death of an Innocent.

(a) Where an Officer's unlawful act causes the death of an innocent Denizen, National, or Citizen, the provisions of Section G (Death) of this Constitution shall apply.

(b) Life shall be answered with life, but only upon proof beyond a reasonable doubt of intentional unlawful killing, with all due process and safeguards required under Section G.

Section 11.6. Transparency and Oversight.

- (a) All findings of removal, restitution orders, and decertifications shall be made part of a public registry.
- (b) No Officer decertified in one State may serve in another without full public review and re-certification.
- (c) Independent civilian boards shall oversee investigations, restitution enforcement, and certification decisions.

Section 11.7. Prohibition of Private Vengeance.

- (a) No private person may exact restitution, retaliation, or execution outside of lawful process.
- (b) All remedies under this Article shall be carried out solely through lawful proceedings of the State, consistent with this Constitution.

Section 11.8. Eligibility of Officers of Law Enforcement.

- (a) No person who has ever served in the Armed Forces, military service, or equivalent combat organization, foreign or domestic, shall be eligible to serve as an Officer of Law Enforcement.
- (b) The purpose of this prohibition is to preserve the distinction between the duties of war and the duties of law. The armed forces are trained and authorized to kill enemies of the Republic; Officers of Law Enforcement are entrusted only to investigate breaches of public and private law

and to collect evidence for the State.

(c) Any prior service in the armed forces constitutes an inherent conflict of interest and disqualifies the applicant from policing duties within this Union.

(d) This prohibition shall be permanent and not subject to waiver by any State, department, or board.

Section 11.9 — Justice as Continuous Demonstration

(a) Every Officer of Law Enforcement shall act not in fear of punishment, nor in anticipation of reward, but in the living demonstration of Justice itself.

(b) Justice, under this Constitution, is not a retribution for acts done, but the conscious act of fairness, balance, and compassion in the moment of choice.

(c) Justice is an action, not a reaction; therefore, no Officer may excuse harm, abuse, or negligence by appeal to “later correction” or “afterlife judgment.” Justice must be shown at the instant of decision.

(d) To ensure this, every Officer shall upload and make transparent, by body-recording and public ledger, their actions and reasoning in service, that Denizens may witness Justice lived in real time.

(e) No Officer shall be condemned for acting with fidelity to Justice, even where outcomes are imperfect, so long as their act was openly grounded in fairness, compassion, and respect for life.

(f) Any Officer who conceals, falsifies, or refuses to demonstrate Justice shall be guilty of Breach of Oath and subject to restitution under this Constitution.

(g) This clause is interpreted in harmony with Title 12, which teaches that there is no “right or wrong” imposed by heaven, but only Life choosing its expression. Therefore, Justice is not imposed from above, but demonstrated through the actions of Denizens and Officers here and now.

Section 11.10 — Separation from Professions of Death

(a) The office of Law Enforcement is a vocation of life, not of death. Its training, tools, and duties shall be wholly distinct from the arts of war, combat, or lethal force.

(b) No Officer shall be trained in, nor employ, military doctrines of kill, maim, or destroy. Techniques of combat, suppression, or annihilation belong to war, not to policing.

(c) Policing shall be rooted in de-escalation, investigation, mediation, and restitution. Officers shall be guardians of transparency, not soldiers of enforcement.

(d) Specialized roles that require the bearing of arms shall be strictly limited to immediate defense of life, never of property alone, and always subject to public transparency and jury review.

(e) Recruitment and training shall exclude all institutions and curricula designed for war, combat, or militarized control. Every Officer’s education shall emphasize justice as action, restitution

before punishment, and Love as the highest law.

(f) Any blending of police and military roles is prohibited. No Officer of Law Enforcement shall be conscripted, deputized, or converted into a soldier under any circumstance, save during lawful militia defense ratified by blockchain vote of the Denizens.

Section 11.11 — Bond Refund and Term Limits

(a) Each Officer of Law Enforcement shall serve no more than seven (7) years in bonded office. At the end of such service, the Bond shall be returned in full with compound interest of fifteen percent (15%) per annum, payable in metals or equivalent certificates.

(b) Upon honorable completion of term, the Officer shall be released from all further bond obligations, free and clear.

(c) Any attempt to extend or renew bonded service beyond seven (7) years shall be void.

(d) Reappointment after seven years may occur only after a full review and unanimous jury certification, with a new bond pledged.

(e) “We honor your sacrifice. We don’t want you broken, bitter, or trapped. You serve for a season, and then you heal, with our gratitude and support.”...therefore, The purpose of this limit is to preserve the mental and spiritual health of Officers, recognizing that prolonged exposure to violence, conflict, and human suffering degrades compassion and undermines Justice.

Section 11.12 – Closing Statement on Policing and Justice

Truth and Justice are not matters of majority opinion. Not even the unanimous voice of Denizens or States may abolish the sovereignty of Life, the Primacy of Love, or the rights that precede all law.

The Officer of Law Enforcement is bound to this higher compass: to act in Justice, even if crowds demand injustice; to preserve dignity, even if consensus cries for vengeance.

For Justice is not punishment after harm, but action in fairness, compassion, and truth in the present moment.

Book 7: Of the General Welfare and Special Welfare

Section 1. Of Definition

Article V — Of the General Welfare and Special Welfare

Section 1. Definitions

 1. General Welfare means institutions, protections, services, or distributions provided equally and universally to all Denizens without preference, exclusion, condition, or loyalty oath.

📜 2. Special Welfare means payments, benefits, exemptions, or privileges conferred upon any person or class by name, status, or contract. Special Welfare is not a duty of the Union and may only be established by a State under its own laws, provided such programs are transparent and voluntary.

📜 3. Sovereignty Dividend means the universal, equal, periodic distribution to all Denizens as shareholders of the Republic, funded from national sovereign revenues, and not deemed Special Welfare.

📌 **Section 2. State Powers in the General Welfare**

Each State may, from its Infinite Banking Treasury (IBT), provide for:

- a. Police & Public Safety — equally available protection to all Denizens;
- b. Courts of Justice — impartial tribunals open to all Denizens;
- c. Militia & Fire Protection — equal community defense and fire response;
- d. Infrastructure — roads, bridges, ports, energy, water, and communications accessible to all;

e. Knowledge & Culture — libraries, forums, and academies of voluntary association open to all; no State shall establish or fund public schools, a Department of Education, nor compel attendance;

f. Health Safeguards — hospitals, emergency response, sanitation, and clean water accessible to all.

Section 3. Funding State-Level General Welfare

 1. State General Welfare shall be funded through the IBT, sustained by excise taxes, user fees, lotteries, resource royalties, repayments with interest, and federal remittances or grants.

 2. No State may impose income, property, or ad valorem taxes to fund the General Welfare.

 3. All IBT loans for General Welfare shall be repaid with interest into the IBT to preserve perpetual capital.

Section 4. Federal Support of the General Welfare

1. The Union shall support only Union-level General Welfare:

a. National defense and militia coordination;

- b. Interstate infrastructure and communications binding the several States;
- c. Courts of appeal for controversies among States and with foreign powers;
- d. Emergency coordination in war, famine, pestilence, or disaster.

 2. The Union shall not administer Special Welfare in any form.

 3. The Union may administer the Sovereignty Dividend as defined in Section 7.

Section 5. Denizen Rights

 1. Every Denizen shall have equal access to the protections and services of the General Welfare within his State.

 2. No Denizen shall be compelled to enroll in or accept Special Welfare; all such State programs shall be voluntary.

 3. No General or Special Welfare may be conditioned upon surrender of rights, property, medical autonomy, or political loyalty.

Section 6. Transparency & Accountability

 1. All General Welfare inflows and outflows at both State and Union levels shall be published quarterly, on-chain, with line-item detail and open-data access.

 2. Any program found discriminatory, corrupt, or failing in duty is subject to jury review and nullification, with claw-back of misused funds where practicable.

Section 7. The Sovereignty Dividend (Universal Basic Income)

 1. Universality & Equality.

After funding the Union's constitutional obligations, the Union shall distribute to every Denizen an equal, unconditional monthly Sovereignty Dividend.

 2. Permissible Funding Sources (Federal Only). The Sovereignty Dividend shall be funded solely from:

- a. Tariffs on imports/exports;
- b. Protection contracts—defense services and security guarantees leased by treaty to allies;
- c. Immigration bonds & high-value admissions fees (e.g., “Gold Card”

citizenship/long-residency);

d. Progressive surplus remittances from Federal departments to the States for Dividend purposes.

Prohibited: direct taxes on income or property; deficit spending; monetary expansion or debasement.

3. Sound-Money Settlement.

Payments shall be in United States Certificates, redeemable under the quad-metal/stone standard, immune from inflationary dilution by issuance.

4. Voluntary Acceptance.

Acceptance is voluntary; no right or liberty shall be conditioned upon receipt.

5. Administration.

Distribution shall be automatic and rules-based, without means-testing or case managers.

6. Emergency Suspension.

In declared war or national emergency, the Executive may temporarily suspend monthly distributions for a specified period; such suspension is:

- a. subject to a 72-hour Vice-Presidential freeze;
- b. expires unless extended by a two-thirds blockchain-ratified vote of the States;
- c. automatically terminates at the earlier of the declared end of emergency or 90 days unless re-ratified;
- d. upon resumption, payments resume prospectively; any make-up payments require the same supermajority ratification.

7. Non-Assignment.

The Dividend shall be free from garnishment or assignment except by denizen's express consent for voluntary contracts.

Section 8. Sovereignty Endowment at Maturity

-  1. Each Denizen, upon attaining the age of twenty-five (25), shall receive a one-time Sovereignty Endowment financed from his State's IBT reserves, to be used for homestead, enterprise, trade, or education of choice.

 2. The Endowment shall not be funded by income, property, or ad valorem taxes, nor by deficit financing.

Section 9. Community Contribution Enclaves (CCE)

 1. States may charter voluntary Community Contribution Enclaves for skill-building, production, rehabilitation, and civic works, offering additional credits above the Dividend.

 2. CCE participation shall be voluntary and shall not constitute punishment or forced labor; all wages/credits are by consent and on-chain transparent.

Section 10. Prohibitions & Safeguards

 1. Neither the Union nor any State shall establish or fund a Department of Education, nor compel attendance in any school.

 2. No agency may expand beyond enumerated duties under color of “general welfare.”

 3. No General Welfare program may be financed by deficit spending or currency debasement.

 4. No program may condition benefits on speech, belief, medical status, or political allegiance.

 1. **Special Welfare**, defined as payments, benefits, or privileges conferred upon an individual or select group of denizens by name, contract, or status, shall not be the duty of the Federal Government, and may only be established by a State under its own laws, provided such programs are transparent and voluntary.

Section 2. Of State Powers in General Welfare

Each State may, from its Infinite Banking Treasury, provide for:

- a. Police and Public Safety → equally available to all denizens within the State;
- b. Courts of Justice → impartial and open to all denizens;
- c. Militia Defense and Fire Protection → all denizens equally guarded;
- d. Infrastructure → roads, bridges, ports, energy, water, and communications accessible to all;
- e. Knowledge and Culture → libraries, and academies open to all denizens;
- f. Health Safeguards → hospitals, emergency services, and clean water accessible to all.

Section 3. Of Funding the General Welfare

 1. General Welfare shall be funded through the State's Infinite Banking Treasury, sustained by excise taxes, lotteries, and federal grants.

 2. No State may impose income, property, or ad valorem taxes to fund the general welfare.

 3. All loans from the Treasury for general welfare projects shall be repaid with interest into the Treasury, preserving its perpetual strength.

Section 4. Of Federal Support

 1. The Federal Government shall support only the General Welfare of the Union, meaning:

- a. National defense and militia coordination;
- b. Interstate infrastructure, such as roads, canals, railways, or communications that bind States together;
- c. Courts of appeal where disputes between States or nations arise;
- d. Emergency coordination in war, famine, or disaster.

 2. The Federal Government shall not administer Special Welfare in any form.

Section 5. Of Denizen Rights

 1. Every denizen shall have equal access to the protections and services of the General Welfare within his State.

 2. No denizen shall be compelled to enroll in or accept Special Welfare; all such programs at the State level shall be voluntary.

 3. No welfare program, general or special, may be conditioned upon surrender of rights, property, or political loyalty.

Section 6. Of Transparency

 1. All expenditures for the General Welfare shall be published quarterly upon the blockchain.

 2. Any program found to be discriminatory, corrupt, or failing in duty shall be subject to jury review and nullification.

Book 8 – Of the Blockchain and the Public Ledger

Article 1 — Of the Blockchain and the Public Ledger

Section 1 — Of the Blockchain

-  1. The Blockchain shall be the perpetual, incorruptible public ledger of the Union, recording laws, elections, pledges, budgets, resources, and all matters of governance.
-  2. It shall remain open-source, decentralized, and free to audit by any Denizen or lawful observer, such that no secret books or hidden accounts may ever exist.
-  3. The Blockchain shall be maintained across distributed nodes within every State and upon international neutral servers, preventing tampering, coercion, or destruction.

Section 2 — Of Security and Permanence

-  1. Each block shall be sealed with cryptographic signatures, immutably binding every transaction to the chain of time.
-  2. No alteration, deletion, or concealment shall ever be permitted; errors shall be

corrected only by counter-entry, leaving the full history intact.

 3. The system shall employ redundancy, with backups in multiple States, and a paper-printed trail of all constitutional records, maintained in public archives for the safeguard of posterity.

Section 3 — Of Access and Participation

 1. Every Denizen shall have the right to access the Blockchain freely, without fee or license.

 2. Secure keys shall be issued at birth or naturalization, granting each Denizen a private means of access, vote, and record.

 3. No Denizen shall be denied access due to age, infirmity, or lack of technical skill; the States shall provide open terminals in public houses, and simplified devices for the elderly and disabled.

 4. Education in Blockchain use shall be part of the common curriculum, ensuring all future generations may participate with competence.

Section 4 — Of Transparency and Audit

-  1. The Blockchain shall be fully visible to all, without encryption of public records; only private communications and personal data shall be shielded.
-  2. Any Denizen may audit the chain at will, and all proceedings of governance shall be posted upon it within seven (7) days of enactment.
-  3. No law, contract, or treaty shall have force unless ratified upon the Blockchain, open to the eyes of the People.

Section 4A — Digital Domain Sovereignty

-  1. Every Denizen has the unalienable right to establish private digital domains, handshake networks, and encrypted servers within or outside the Union's jurisdiction.
-  2. Access to such domains shall be by voluntary key-sharing only, and no government body shall compel entry without a jury-issued warrant based on probable cause.
-  3. The Union's Blockchain shall serve as the public ledger for voluntary federation between domains, ensuring transparency of inter-network agreements without breaching private domain sovereignty.

 4. Errors or disputes shall be resolved by counter-entries on-chain, preserving the full historical record without deletion.

Section 5 — Of Redundancy and Paper Trail

 1. For every constitutional act, vote, or record entered upon the Blockchain, a corresponding paper ledger shall be maintained, signed and sealed, and preserved in the State archives.

 2. The National Archive of the Union shall receive duplicate records, ensuring recovery in the event of digital failure.

 3. Paper shall serve as witness to truth; Blockchain shall serve as instrument of trust. Together they shall preserve liberty beyond fraud and beyond time.

Section 6 — Interactive Governance Protocols

Clause 6.1 — Hosting of Law LLMs.

The Blockchain shall host, reference, or cryptographically anchor every Law Language

Model (**LLM**) required under Title I, including its full training corpus, configuration, and version history. Each LLM shall be addressable by a permanent on-chain identifier and replicated across distributed nodes for fault tolerance.

Clause 6.2 — Activation Window.

No public ratification vote shall open unless the corresponding LLM has been accessible to all Denizens for not fewer than fourteen (14) consecutive days immediately prior to the voting window. The activation and deactivation timestamps shall be recorded on-chain.

Clause 6.3 — Live Session Records.

Every mandatory live session held by a Representative or Senator under Title I shall be recorded in full, hashed within twenty-four (**24**) hours, and published to the Blockchain together with synchronized transcript and captions.

No editing, redaction, or concealment shall bind the People; any lawful redactions to protect victims shall be narrowly tailored and separately logged with reasons stated.

Clause 6.4 — Equal Access;

No Tollgates. Access to Law LLMs and live-session archives shall be free of charge to every Denizen. States shall provide public terminals and simplified devices for the elderly and disabled to ensure universal participation as required in this Title.

Clause 6.5 — Privacy & Anonymization.

Denizen conversations with Law LLMs shall remain private. Only anonymized, aggregate interaction metrics may be published (**e.g., most-asked questions, topical heat maps**).

No personal identifiers, conversation content, or metadata shall be retained or shared beyond what is technically necessary to prevent duplicate accounts and to secure proof-of-life credentials.

Clause 6.6 — Audit & Integrity (D.O.G.E.).

The Department of Government Efficiency (**D.O.G.E.**) shall continuously audit:

- (a) training data provenance,
- (b) model neutrality and disclosure of known limitations,
- (c) safety against manipulation, and
- (d) uptime and accessibility. All audits and issues shall be posted on-chain with remediation timelines.

Clause 6.7 — Open Datasets & Reproducibility.

Training corpora, citations, and evaluation results used for each Law LLM shall be posted or permanently referenced on-chain to enable independent replication. Where copyrighted materials are relied upon, cryptographic proofs of lawful access must be recorded.

Clause 6.8 — Paper Witness.

For each LLM and live session, a paper abstract shall be generated containing: bill title, on-chain identifier, activation window, model card (capabilities, limits, datasets), and the session transcript. These abstracts shall be archived in State repositories and the National Archive as the paper witness to the digital record.

Clause 6.9 — Preconditions to Vote.

A public ratification vote shall be void ab initio unless:

- (a) the LLM was active for the full fourteen (14) day review period;
- (b) at least one live session was held and posted; and
- (c) D.O.G.E. has filed no unresolved critical audit blocking participation.

Clause 6.10 — Anti-Manipulation & Rate Limits.

The Blockchain shall enforce transparent throttles against automated flooding, coordinated inauthentic behavior, or adversarial prompts intended to distort Denizen understanding. Any such measures shall be publicly documented and narrowly scoped to the offending behavior.

Clause 6.11 — Accessibility & Language Equity.

LLM interfaces and live-session transcripts shall be available in the primary languages used within the Union, with accommodations for low-literacy and audio-first access.

Clause 6.12 — Sunlight by Design.

Interface source code, model cards, and audit tooling for this Section shall be open-source under licenses consistent with sovereign public use, ensuring continual public inspection and improvement.

Clause 6.13 — Preconditions for Valid Lawmaking and Automatic Nullification.

No public ratification vote, blockchain tally, or resulting law shall be valid or enforceable unless the following preconditions have been fully met:

1. Fourteen-Day Access Window: The proposed law's Law Language Model (LLM) must be active and accessible to all Denizens for a minimum of fourteen (14) consecutive days prior to the opening of the vote.
2. Live Public Session Completion: At least one live public session must have been held, recorded, hashed to the Blockchain, and publicly published within the same fourteen (14) day period.

3. Universal State Access: Every State must confirm that Denizens have free and equal access to public terminals and devices necessary to participate, as verified by D.O.G.E. audit logs.

4. Audit Certification: D.O.G.E. must publish a final “Integrity Certificate” confirming that: (a) the LLM training data was complete and neutral; (b) the live session was timely and unedited; and (c) no systemic manipulation or fraud was detected.

5. Blockchain Anchoring: The timestamps for all steps above shall be permanently logged and cryptographically anchored to the Blockchain before the voting window opens.

Automatic Nullification:

If any of the above conditions are not met, the vote and its results are automatically void ab initio — as though they never occurred.

Any attempt to enforce such a law shall be treated as a constitutional breach by all parties involved.

Public Notice:

Upon nullification, an automatic blockchain broadcast shall notify every Denizen, State, and federal office, with the reasons and failing party identified for full transparency.

Section 7 — Photonic and Quantum Record Integrity

-  1. Photonic Storage. All constitutional, legislative, judicial, and civic records shall be stored in photon-based memory systems, including but not limited to LiFi networks, optical registers, or quantum-light substrates.
-  2. Quantum Interpretive Engines. The Republic shall employ quantum processors to analyze ledger states, evaluate systemic integrity, and ensure uncompromised truth within the national record.
-  3. Immutable Continuity. Records preserved in light may not be erased, overwritten, or obscured. Interpretation may evolve; memory shall not.
-  4. Sovereign Light Nodes. Every Denizen may, by right, host a light-node to preserve fragments of the national ledger, ensuring distribution, resilience, and eternal redundancy.
-  5. Security by Light. As light does not pierce walls, so shall no record be intercepted or altered without consent. Transmission by photon establishes the highest privacy available to a free people.

Book 9 – Of the Union Credit Instrument

 Preamble — The Weight of Amendment, and the Purpose of the Union Credit Instrument
Federal power drifts when spending floats—when the hand that signs can also mint, and when “later” debt becomes today’s habit. The Union therefore shall not carry a hidden purse, a shadow treasury, or a printing-press temptation. Instead, federal spending is leashed to a single instrument—the American Eagle Token Credit Instrument (“Union Credit Card”)—so that every dollar-equivalent spent has a visible spine, a named author, and a posted receipt.

 This Instrument exists to make federal spending bounded, auditable, and consent-backed. Its limit is not a wish, not a war-story, not a bureaucratic forecast—but the collateral reality of State pledges recorded on-chain. When the States pledge, the Union may act; when the States withdraw, the Union must contract. Thus sovereignty stays where it belongs: with the several States and the Denizenry who animate them.

 By requiring that all federal charges, repayments, and emergency drawdowns live on the blockchain in public daylight, the Union abandons secret books and sealed budgets. Speed in crisis is preserved, but speed without oversight is refused: freezes, audits, and revocations remain available as constitutional brakes, not political favors.

 In this way, the Union Credit Instrument is not a convenience—it is a constitutional discipline: spending with limits, action with receipts, and power with consequences—so the Republic can move fast when it must, yet never drift far from what is pledged, proven, and publicly seen.

Article 1 — Of the Union Credit Instrument

Section 1 — Establishment

-  1. The American Eagle Token Credit Instrument, hereafter “**the Union Credit Card**,” is established as the sole instrument of Federal spending.
-  2. The Union shall maintain no independent Treasury, specie, or fiat currency; all Federal transactions shall be conducted upon this Instrument.
-  3. All lawful expenses of the Union, including Congress, Judiciary, Executive, Defense, Immigration, D.O.G.E., and foreign affairs, shall be charged to the Union Credit Card.

Section 2 — State Pledges as Collateral

-  1. The credit limit of the Union Credit Card shall equal only the collective pledges of resources made by the several States into their Infinite Banking Treasuries (**IBTs**), as recorded upon the blockchain.
-  2. Such pledges may include, but are not limited to: quad-metal, certified precious

stones, oil and energy reserves, agricultural surplus, or other tangible resources.

 3. No credit shall exist absent such pledges.

 4. States may revoke or reduce their pledges at any time, thereby reducing the credit limit of the Union.

Section 3 — Cashback Reserve

 1. All transactions of the Union Credit Card shall produce cashback rewards denominated in American Eagle Tokens.

 2. Such cashback shall accumulate in a separate and restricted pool, the Union Emergency Reserve.

 3. The Emergency Reserve shall not form part of the general budget of the Union and shall not be diverted to ordinary operations.

Cashback Brackets & Rotating Categories

 4.1. Definition. A portion of surplus revenue, as defined in Title 10, shall be returned to the Federal Government in the form of cashback brackets, analogous to rewards upon its lawful expenditures and credit usage.

 4.2. State-Defined Categories. The States, in joint session through the Senate, shall designate the cashback categories for each biennial term. Categories may include but are not limited to: quantum and D.O.G.E. updates, biosecurity, diplomacy, environmental restoration, archives, public domain research, or disaster readiness.

 4.3. Federal Redemption. The Federal Government may redeem cashback funds solely within the categories established by the States, choosing specific projects at its discretion, provided that all redemptions are recorded on the sovereign blockchain.

 4.4. Negotiation Process. At the start of each new Congress, the Federal Government may present its proposed categories of need. The Senate shall balance these with the priorities of the States, and the agreed categories shall govern cashback redemption for that session.

 4.5. Expiration. All categories and allocations established under this Section expire with the biennial budget reset, and no cashback credits may be carried forward.

Section 4 — Permitted Uses of the Emergency Reserve

-  1. The Union Emergency Reserve may be drawn down only for:
- a. Defense and National Security of the Union;
 - b. Protection of Denizens Abroad, including embassies, evacuations, and rescues;
 - c. Disaster Relief and National Emergencies, including floods, fires, earthquakes, hurricanes, or pandemics.

Section 5 — Oversight and Revocation

-  1. All transactions, cashback accruals, and withdrawals from the Union Credit Card shall be immutably logged and hashed upon the blockchain.
-  2. Each State shall appoint auditors with continuous right of access to all such records.

 3. Any Governor may, by Executive Order, call a seventy-two (**72**) hour audit freeze upon the Union Credit Card, during which no new spending shall occur until audit conclusion.

 4. Should misuse of the Card or Emergency Reserve be found, the States may revoke the Union's credit immediately, and all responsible officers shall forfeit their Bonds.

Section 6 — Emergency Flexibility

 1. In times of war or national peril, the President may authorize temporary expansion of the Union Credit Card through pledges of petroleum or other strategic reserves, recorded upon the blockchain.

 2. Such emergency issuance shall expire after one hundred and eighty (180) days unless ratified by a majority of Denizens upon the blockchain.

Section 7 — Repayment of the Union Credit Card

 1. The Union Credit Card shall be repaid solely and exclusively from the lawful revenues of the Federal Government, which include:

- a. Tariffs and customs duties;
- b. Fees, fines, and federal service contracts;
- c. The progressive tax upon the Federal Government itself, as established in Title IV, Section 10.

 2. At no time shall the Union Credit Card be repaid by taxation upon Denizens, nor by fiat issuance, nor by foreign debt.

 3. The proceeds of the progressive tax upon the Federal Government shall be remitted directly to the Infinite Banking Treasuries of the several States, strengthening their collateral base.

Section 8 — Transparency and Denizen Audit

-  1. All operations of the Union Credit Card and Emergency Reserve shall be public record upon the blockchain.
-  2. Denizens shall retain the right to audit all spending in real time, including the amount and purpose of cashback allocations.

Section 9 — Budget Reset by Bonds of Honor

-  1. At the commencement of each new Congress and Senate, the Federal budget shall reset in full to the aggregate sum of all Bonds of Honor posted by officers of the Federal Government, including the President, Vice President, Senators, Representatives, Justices, and Judges.
-  2. The total of these Bonds shall constitute the lawful baseline of the Federal budget for that session. No additional baseline funds shall carry over from prior sessions.
-  3. The growth of the Federal budget beyond this baseline may occur only through lawful revenues of the Union, as defined in Title IV, Section 10, and through lawful pledges made by the several States.

 4. Officers shall recover their Bonds of Honor only upon faithful completion of their term and the lawful discharge of their duties, subject to forfeiture upon breach of oath or misuse of office.

 5. Failure of the Union to maintain solvency in any session shall result in the loss of officer Bonds as determined by law, with forfeited sums remitted directly to the Infinite Banking Treasuries of the several States.

 6. Clause 10.2.5 — Cross-Reference. Allocations under the 15–25% cashback bracket shall be administered in accordance with Title 9.4 – Cashback Brackets & Rotating Categories, and no federal redemption shall occur outside the categories therein defined.

Section 10 — Wartime Liquidity Ladder Procedures

 1. The implementing law codes shall specify the operational procedures for wartime liquidity draws upon the Union Credit Card, including, at minimum:

- a. What qualifies as a “verified attack;”
- b. What qualifies as “critical infrastructure;”
- c. Valuation windows;

- d. Collateral haircuts;
- e. Repayment priority; and
- f. The Infinite Banking Treasury (**IBT**) credit-draw template — and related operational details — so the procedure may evolve by code without rewriting this Constitution.

Book 10 — Of Amendments

 ***Preamble*** - Amend the laws, not this Constitution.

Section 1 — Threshold for Proposal

-  1. Amendments may be proposed only by:
- a. Two-thirds of the States, acting in formal blockchain convention; or
 - b. Two-thirds of Congress, sworn upon bond; or
 - c. A People's Petition, signed upon blockchain by not less than ten percent (**10%**) of all Denizens.

Section 2 — Threshold for Ratification

 1. No amendment shall be valid unless ratified by:

- a. One hundred percent (**100%**) of the States, each by blockchain referendum of their Denizens; and
- b. One hundred percent (**100%**) of all Denizens voting upon the blockchain.

 2. Both conditions must be met; neither alone shall suffice.

Section 3 — Safeguard of Rights

 1. No amendment may abolish or abridge the unalienable rights of Denizens, nor strip them of sovereignty, jury trial, blockchain access, or quad-metal protections.

 2. Any attempted amendment contrary to the laws of Nature or of Nature's God shall be null and void, without need of vote.

Section 4 — Transparency of Proposal

 1. Every proposed amendment shall be published upon the blockchain in full text for not less than three (**3**) years before any ratification vote may be held.

 2. During this time, States shall convene civic councils, juries, and assemblies for review and debate.

Section 5 — Jury Veto

 1. Any jury of Denizens, sitting in lawful court, may unanimously declare an amendment void if it violates natural law, sovereignty, or unalienable rights.

 2. Such a jury veto shall bind the Union, even against universal consent.

Section 6 — Immutable Core

 1. The following foundations shall never be amended nor repealed:

- a. Jury nullification;
- b. Blockchain transparency;
- c. Quad-metal treasury;
- d. Civic Commons Enclaves;
- e. Allodial property of Denizens;
- f. The Supremacy of this Constitution.

 2. Amendments shall not be made by stealth. This Constitution may be amended only through the process set forth in this Title.

6.1 — Exclusivity of the Amendment Process

The Constitution of the Sovereign States of America may be amended only through the amendment process expressly set forth in this Title. No alteration, addition, deletion, suspension, or re-scoping of constitutional text, authority, rights, duties, or structure shall occur by any other means.

6.2 — Role of the Three Immutable Titles

The principles of Functionality, Adaptability, and Sustainability are declared immutable guides for interpretation and assessment of constitutional coherence. They shall serve as diagnostic instruments for identifying tension, failure, or misalignment within constitutional operation.

6.3 — Prohibition on Constructive Amendment

No invocation, finding, or interpretation grounded in Functionality, Adaptability,

Sustainability, or any combination thereof shall, by itself or in aggregate, authorize, effectuate, or constitute an amendment to this Constitution. Any action that would materially change constitutional meaning, scope, or effect shall be deemed an amendment and shall be invalid unless enacted pursuant to this Title.

6.4 — Trigger for Review, Not Authority to Alter

A finding that two or more of the Three Immutable Titles are substantially impaired may compel formal review and proposal of amendment, but shall not prescribe outcomes, draft language, nor bypass the procedural thresholds herein required.

6.5 — Burden of Demonstration

Any body invoking the Three Immutable Titles in support of a proposed amendment shall publish a written finding specifying:

(a) the Title or Titles invoked;

- (b) the measurable markers evidencing impairment; and
- (c) the reasons existing constitutional provisions are insufficient absent amendment.

Such findings shall carry no operative force beyond initiating review.

6.6 — Nullification of Soft Amendment

Any act, ruling, regulation, or interpretation that alters constitutional operation while purporting to rely solely on interpretive principles, necessity, emergent conditions, or immutable law—without compliance with this Title—shall be void ab initio.

Section 7 — Amend the Law, Not the Constitution

This Constitution is not clay to be reshaped, but stone to be stood upon. Laws may change, adapt, and pass away; but the covenant of sovereignty, transparency, restitution, and Love endures. Therefore: change the laws, not this Constitution.

Book 11 — Of Immigration and National Admission

Article 1 — Of Denizens, Citizens, and Nationals

Section 1 — Denizens

 Clause 1.1 — Denizens are the sovereigns of the Republic, inheriting sovereignty by birth upon Union soil.

 Clause 1.2 — Denizens hold political voice, jury right, ratification authority, and inheritance of allodial land and sovereignty dividend.

Section 2 — Citizens

 Clause 2.1 — Citizens are Denizens who enter oath and bond of public office.

 Clause 2.2 — Their sovereignty is not enlarged, but their

accountability is doubled.

Section 3 — Nationals

 Clause 3.1 — Nationals are immigrants admitted under lawful covenant.

 Clause 3.2 — Nationals enjoy rights of life, liberty, property, contract, and due process.

 Clause 3.3 — Nationals may not vote, serve on juries, hold office, or participate in blockchain ratification.

Article 2 — The Bond of Word

Section 1 — Declaration

 Clause 1.1 — Every applicant for National status shall declare a Bond

of Word, pledging stewardship, family, work, and contribution.

 Clause 1.2 — The Bond of Word shall be recorded immutably upon the blockchain.

Article 3 — Admission by Private Contract Association (PCA)

Section 1 — State Sponsorship

 Clause 1.1 — No immigrant shall be admitted without sponsorship by a State through a Private Contract Association (PCA).

 Clause 1.2 — The State shall set the obligations of the PCA, subject to this Constitution.

 Clause 1.3 — Nationals remain bound to their sponsoring State unless lawfully released or re-sponsored elsewhere.

Section 2 — Judicial Confirmation

 Clause 2.1 — A PCA shall not take effect until confirmed by a majority of judges of the sponsoring State's Superior Court, or such Judicial Immigration Board (JIB) as the State may appoint.

 Clause 2.2 — Judges confirm that the PCA complies with constitutional safeguards and that obligations are lawful and voluntary.

Section 3 — Federal Concurrence

 Clause 3.1 — Upon judicial confirmation, the PCA shall be submitted to the State Council (Senate).

 Clause 3.2 — Concurrence by a majority of States is required for admission.

Article 4 — Cohort Admission Protocol (CAP)

Section 1 — Risk Lanes

Clause 1.1 — Applicants shall be triaged into risk lanes: Lane G (low risk), Lane A (moderate), Lane R (high).

Clause 1.2 — Lane G and Lane A may be admitted in cohorts; Lane R requires individual review.

Section 2 — Cohort PCA

Clause 2.1 — States may issue Cohort PCAs, grouping applicants by skill, resource pledge, or family composition.

 Clause 2.2 — Each cohort member shall sign their Bond of Word and adopt the Cohort PCA terms.

Section 3 — Judicial and Federal Review

 Clause 3.1 — Cohort PCAs must be confirmed by the sponsoring State's Judicial Immigration Board.

 Clause 3.2 — Cohort PCAs require concurrence of the State Council by majority of States.

Section 4 — Capacity and Caps

 Clause 4.1 — Each Cohort PCA shall present a Capacity Certificate verifying sufficient housing, services, and infrastructure.

 Clause 4.2 — States shall operate under quarterly and annual caps,

subject to adjustment for breach or fraud rates.

Article 5 — Bundling and Sponsorship Auctions

Section 1 — Bundling

 Clause 1.1 — DOGE shall assemble applicants into Bundles, classified by skill, family structure, capital, and risk profile.

 Clause 1.2 — Bundles may be divided into tranches (Class A, B, C) according to risk and skill.

Section 2 — Auction Process

 Clause 2.1 — Bundles shall be offered at public auction to the several States upon the blockchain.

 Clause 2.2 — States may bid sponsorship funds, which shall be allocated as follows:

- a. Recovery of federal vetting and administrative costs
- b. Deposit into the General Welfare Allocation of the sponsored cohort
- c. Balance recorded as a PCA asset in the books of the sponsoring State.

Section 3 — General Welfare Allocation

 Clause 3.1 — Allocations shall not be disbursed directly to Nationals, nor construed as special welfare.

 Clause 3.2 — Allocations shall be expended upon:

- a. Community Contribution Enclaves (CCE) for transitional housing, training, and enterprise
- b. State and local services necessary to sustain increased population
- c. Infrastructure for housing, transport, education, and healthcare.

 Clause 3.3 — DOGE shall audit all allocations annually for fraud or abuse.

Article 6 — Oversight and Enforcement

Section 1 — Probation and Monitoring

 Clause 1.1 — Nationals shall be admitted first on probationary status.

 Clause 1.2 — DOGE shall conduct quarterly audits of compliance with PCA obligations.

Section 2 — Breach and Sanctions

 Clause 2.1 — DOGE may freeze privileges for seventy-two (72) hours upon evidence of breach.

 Clause 2.2 — Citizen Juries shall adjudicate alleged violations.

 Clause 2.3 — Nationals in breach may be sanctioned, suspended, or expelled by law.

Article 7 — Special Provisions

Section 1 — Gold Card Nationals

 Clause 1.1 — Gold Card applicants shall pledge not less than five million (5,000,000) dollars in metals, stones, or certified resources.

 Clause 1.2 — Gold Card Nationals may receive shorter probation, cross-State mobility, and authority to found CCEs.

 Clause 1.3 — Gold Card Nationals hold no sovereignty and may be expelled for breach, with forfeiture of pledge.

Section 2 — Asylum Seekers

 Clause 2.1 — Asylum is a humanitarian act of the Union, managed federally, not by States.

 Clause 2.2 — Asylum seekers shall be placed in CCEs under federal custody and FBI oversight.

 Clause 2.3 — Asylum is temporary and confers no State residency or political privilege.

Article 8 — Sovereignty by Birth

Section 1 — Non-Transmission

 Clause 1.1 — No National, whether ordinary or Gold Card, shall ever

become a Denizen by naturalization.

Section 2 — Birthright

 Clause 2.1 — Children born upon Union soil inherit Denizen sovereignty.

 Clause 2.2 — At twenty-five (25) years of age, such Denizens shall stand in full endowment, debt-free, with all rights of sovereignty.

Article 9 — Transparency and Records

Section 1 — Blockchain Publication

 Clause 1.1 — All Bonds of Word, PCA contracts, Bundles, auctions, allocations, judicial votes, and audits shall be published upon the blockchain.

Section 2 — Privacy Protections

 Clause 2.1 — Personal identifiers and health data shall be anonymized in public records, except where disclosure is required by law.

Book 12 — The Electoral Fiduciary College

Preamble

The Electoral Fiduciary College exists as a government body only for the election of the Union's President and Vice President. In all other times, it is a private fiduciary association of the States, operating under contract law as PMA, PCA, and NGO. Its stewardship of surplus wealth shall not be deemed government welfare, but private trust administration of common assets, exempt from the prohibitions of special welfare.

The College wears three hats:

1. **Governmental** — acting only in its traditional capacity to elect the President and Vice President every four years.
2. **Private Membership Association (PMA/PCA)** — serving as fiduciary

trustee of surplus funds, bound to the right of private contract.

3. Non-Governmental Organization (**NGO**) — arbitrating inter-state disputes, administering surplus programs, and maintaining neutrality.

In all matters outside of presidential elections, the EFC shall not be treated as a government department, but as a fiduciary body of Denizens, bound by contract and transparency.

Section 1 — Composition

Clause 1.1 — Electors.

Each State shall appoint Electors equal to its number of Representatives and Senators.

Clause 1.2 — Membership.

Electors together constitute the Electoral Fiduciary College, seated as one body, but operating through fiduciary chambers.

Clause 1.3 — Bond of Honor.

Every Elector shall pledge a Bond of Honor equal to twenty percent (**20%**) of their annual compensation, lodged in their State Vault.

Section 2 — Fiduciary Responsibility

Clause 2.1 — Custody of Surplus.

The EFC shall manage only surplus funds — never active government budgets.

Clause 2.2 — Allocation.

Surplus funds shall be distributed as follows:

- 25% Bonds of Honor Insurance
- 25% Sovereignty Endowment Fund (25 at 25)
- 20% Denizen Debt Relief Fund
- 20% Universal Health Care Fund
- 10% Emergency Reserve

Clause 2.3 — Trust Character.

All funds shall be treated as trust property, inviolate from seizure by government.

Section 3 — Arbitration Authority

Clause 3.1 — Private Arbitration.

The EFC shall provide private arbitration services between States, Denizens, and agencies of the Union.

Clause 3.2 — Confidentiality.

Arbitrations may remain private to protect State security, trade secrets, or sensitive negotiations, provided that final awards are recorded on the blockchain in anonymized form.

Clause 3.3 — Binding Effect.

Arbitration rulings are binding, subject only to jury review for constitutional violation.

Section 4 — Nature of the College

Clause 4.1 — Dual Character.

The Electoral Fiduciary College shall be recognized as a government body only when assembled in its electoral capacity to elect the President and Vice President.

Clause 4.2 — Private Association.

In all other functions, the College shall be a Private Membership Association (**PMA**), with members bound by Private Contract Association (**PCA**) covenants, and operating as a non-governmental organization (**NGO**).

Clause 4.3 — Exemption.

As PMA, PCA, and NGO, the College shall not be deemed a government agency, department, or program, and shall be expressly exempt from all

constitutional prohibitions on general and special welfare.

Clause 4.4 — Scope of Exemption.

Funds held in trust by the College, whether in the Union Surplus Allocation Fund or Inter-State Surplus Sharing Fund, shall not be considered public revenues, but private fiduciary assets of the Republic, held in trust for Denizens and States.

Book 13 — Surplus Allocation and Circulation

Preamble

Wealth hoarded is theft. All surpluses of the Union and of the several States, after the lawful obligations of government have been satisfied, shall return into circulation for the common sovereignty of Denizens and the balance of States. Surplus shall never be withheld, accumulated, or hoarded by any office or agency of government.

Section 1 — Surplus Defined

Clause 1.1 — Union Surplus.

Surplus of the Union shall mean all revenues remaining after:

- lawful appropriations and obligations;
- payment of all salaries and Bonds of Honor;
- satisfaction of the 200% security rule for Community Contribution Enclaves (**CCE**).

Clause 1.2 — State Surplus.

Surplus of a State shall mean all reserves of its Infinite Banking Treasury (**IBT**) in excess of two hundred percent (**200%**) of its average annual obligations.

Section 2 — Creation of Funds

Clause 2.1 — Union Surplus Allocation Fund (USAF).

All Union surpluses shall be deposited monthly into the USAF.

Clause 2.2 — Inter-State Surplus Sharing Fund (ISSF).

All State IBT surpluses in excess of the threshold shall be deposited into

the ISSF.

Clause 2.3 — Custody.

Both Funds shall be held in trust, inviolate from seizure, managed by the Electoral Fiduciary College as fiduciary association under Title 12.

Section 3 — Distribution of the USAF (Denizens' Surplus)

Clause 3.1 — Fixed Monthly Proportions.

All deposits into the USAF shall be distributed monthly in the following fixed proportions:

- 25% — Bond of Honor Insurance Fund (to guarantee full payment of Bonds of Honor interest).
- 25% — Sovereignty Endowment Fund (25,000 metals/stones granted at age 25).
- 20% — Denizen Debt Relief Fund (to extinguish lawful debts, beginning with the smallest).
- 20% — Universal Health Care Fund (to provide essential care free of debt or tax).
- 10% — Emergency Reserve (Union-wide emergency savings, capped at 2% GDP

equivalent).

Section 4 — Use of the ISSF (States' Surplus)

Clause 4.1 — Authorized Uses.

Deposits into the ISSF shall be distributed by vote of the States through the Electoral Fiduciary College, and may be used only for:

- State-level infrastructure and public works;
- disaster recovery and emergency obligations;
- repayment of State Bonds of Honor in times of stress.

Clause 4.2 — Prohibition on Diversion.

No ISSF funds may be diverted to Denizen programs or to the expansion of State bureaucracy.

Section 5 — Oversight and Transparency

Clause 5.1 — Blockchain Record.

All inflows, allocations, and disbursements shall be published on the

sovereign blockchain in real time.

Clause 5.2 — Audits.

Quarterly audits shall be conducted by three States chosen by blockchain lottery.

Clause 5.3 — Citizen Jury.

Any Denizen may petition for review; misuse or fraud shall be subject to restitution from the Bonds of Honor of responsible officials.

Section 6 — Overflow and Balance

Clause 6.1 — Excess Reserves.

If any Fund exceeds five years of projected need, the overflow shall be redistributed proportionally into the other Funds.

Clause 6.2 — Adaptive Flow.

If the Union Emergency Reserve exceeds its lawful cap, the overflow shall return proportionally into USAF distributions.

Clause 6.3 — No Diversion.

No surplus may be diverted for any purpose not enumerated in this Title, save by unanimous ratification of the Denizens on blockchain vote.

Section 7 — Of the First Fruits of Surplus of the Surplus

Clause 7.1 — Tithe into the Storehouse of Nations.

From the first fruits of the surplus of surpluses, after all duties to Denizens and States have been satisfied, there shall be dedicated a tithe of not less than ten percent (**10%**) into the Storehouse of Nations, for the relief, uplift, and stewardship of other peoples.

Clause 7.2 — Free Offering.

This tithe shall be given freely, without debt, coercion, or condition of allegiance, but as a covenantal offering, flowing outward as the blessing

of abundance.

Clause 7.3 — Witness in Two Forms.

All disbursements of the tithe shall be witnessed in two forms:

- on the sovereign blockchain, showing all amounts and recipients;
- in public record of sight and sound, by video testimony published openly, that all Denizens and nations may see the works accomplished by these first fruits.

Clause 7.4 — Non-Diminishment.

No tithe shall be permitted to diminish or delay the lawful rights of Denizens and States secured in this Constitution.

Clause 7.5 — Jury Oversight.

The tithe shall be overseen by Citizen Juries of the Republic, and by audit of three States chosen by blockchain lottery, to preserve its integrity.

Book 14 — Of Trusts, Associations, and Commerce

Preamble

We, the Denizens of the Sovereign States of America, affirm that life itself is risk. From the moment of birth, the course is uncertain. Storms come, crops fail, fortunes shift, bodies age, and all men meet death. Not even Christ was spared mortality and you are not going to get out of here alive.

If you think trying is risky, wait until you see the price of not trying. If you think investing is risky, wait until you see the cost of not investing. Marriage is risky, raising children is risky, going into business is risky — everything worth doing carries risk. The only life without risk is a life in the corner: safe, shielded, fed, and forgotten. That is not sovereignty; that is servitude.

Therefore, we shall not pretend that risk can be erased by insurance, nor hidden behind the mask of limited liability. To demand safety above all else is to demand a cage. Better to live thirty years of adventure than a hundred years of caution, for the measure of life is not its length but its fullness.

Commerce among us shall be conducted by Trusts, Private Membership Associations, and Private Contractual Associations — contracts of stewardship and consent among the living. These vessels may be freely formed by Denizens for enterprise, trade, and community, but

they are never persons and hold no sovereignty of their own.

Denizens who undertake enterprise do so as sovereign beings, unafraid of risk. They may pledge Bonds of Honor or structure their associations as they see fit, but the law of this Union is clear: accountability rests with the living who act. If harm is caused, restitution is owed. If trust is broken, bonds or assets may be forfeit. There is no insurance, no transfer of liability, and no escape from responsibility.

Thus do we bind the future:

- Freedom to trade without charters of privilege,
- Responsibility without shields,
- Commerce rooted in trust, not fiction,
- Life embraced as risky, yet sacred.

For a sovereign is not afraid of risk — a sovereign embraces it, and in that courage, finds true freedom.

Section 1 — Lawful Vessels of Commerce

 1.1 All lawful business and enterprise within the Union shall be conducted through Trusts, Private Membership Associations (PMAs), or Private Contractual Associations (PCAs).

 1.2 No corporations, limited liability companies, or artificial persons shall be chartered, recognized, or enforced.

 1.3 Such entities are lawful instruments of contract and stewardship, but they hold no sovereignty or rights independent of living Denizens.

Section 2 — Recognition and Formation

 2.1 Any Denizen may establish a Trust, PMA, or PCA by written charter or contract, duly witnessed and entered into the public ledger.

 2.2 The charter shall state its lawful purpose, name its trustees or officers, and bind all members by consent.

 2.3 No State may require incorporation, licensing, or recognition of artificial personhood for such entities.

 Section 3 — Duties and Accountability

 3.1 Trustees and officers act as fiduciaries, bound by Bond of Honor and strict fiduciary duty.

 3.2 They must act with loyalty, prudence, transparency, and stewardship.

 3.3 All responsibility attaches directly to living Denizens; no shield of limited liability shall exist.

 3.4 Any breach of fiduciary duty shall result in restitution, forfeiture of Bond of Honor, and removal from office.

Section 4 — Liability and Insurance

 4.1 Strict Liability shall apply to all harms caused by Denizens, trustees, officers, or associations, without cap or shield.

 4.2 Insurance, indemnity, or liability transfer is prohibited. No Denizen may contract to wager against harm, or to transfer responsibility for it.

 4.3 Denizens may form mutual aid associations for voluntary support in times of hardship, provided they operate without profit and without creating shields of liability.

Section 5 — Courts and Oversight

 5.1 Courts shall recognize PMAs, PCAs, and Trusts as private

contracts, and shall intervene only in cases of:

- Fraud, coercion, or lack of consent,
- Breach of fiduciary duty,
- Harm caused to Denizens or the public welfare.

 5.2 Courts shall not treat any trust, PMA, or PCA as a person, but only as a contract or instrument.

 5.3 Any law or judgment granting personhood or sovereign rights to an artificial entity shall be void ab initio.

Section 6 — Federation and Scale

 6.1 PMAs, PCAs, and Trusts may federate or contract with one another for scale, provided they do not create monopolies or claim sovereign powers.

 6.2 Federations remain accountable to their members and must operate by stewardship, not domination.

Section 7 — Dissolution and Abuse

 7.1 Any PMA, PCA, or Trust acting as if it were a sovereign person, hoarding wealth without purpose of stewardship, or engaging in fraud, shall be dissolved.

 7.2 Upon dissolution, assets shall revert to beneficiaries, members, or the public treasury, as justice requires.

 7.3 Trustees or officers guilty of abuse shall forfeit Bonds of Honor and bear restitution personally.

Section 8 — Economic Sovereignty of Denizens

 8.1 Every Denizen has the natural right to form or join a PMA, PCA, or Trust for business, trade, faith, or community.

 8.2 No Denizen shall be compelled to incorporate under State charters, nor subjected to artificial personhood.

 8.3 Commerce, wealth, and innovation shall flow through living stewardship, ensuring accountability, balance with nature, and the primacy of life.

Section 9 — Private Arbitration of Commercial Disputes

 9.1 Denizens forming PMAs, PCAs, or Trusts may establish private arbitration systems for the resolution of disputes among members or with other associations.

 9.2 Arbitration agreements, voluntarily entered, shall be binding and enforceable, provided they do not violate public law or the Codex of

Celestial Ethics.

 9.3 Arbitrators shall be chosen by the consent of the parties, or as provided by the association's charter.

 9.4 Courts of this Union shall defer to private arbitration where such agreements exist, intervening only in cases of fraud, coercion, or breach of public law.

 9.5 No arbitration body shall claim sovereignty or personhood; it exists only as an extension of the consenting parties' will.

Book 15 – Of Covenant and Benediction

Of Covenant

There is perfection in everything. Strive to see the perfection. This is the change of consciousness of which I speak. Need nothing. Desire everything. Choose what shows up.

Feel your feelings. Cry your cries. Laugh your laughs. Honor your truth. Yet when all the emotion is done, be still and know that I am God.

In the midst of the greatest tragedy, see the glory of the process. Even as you die with a bullet through your chest, even as you are being violated, know that you are not forsaken. Fear not. I am with you. In your darkest hour, I will be your light. In your blackest moment, I will be your consolation. In your most difficult and trying time, I will be your strength.

Therefore have faith, for I am your shepherd; you shall not want. I will cause you to lie down in green pastures; I will lead you beside still waters. I will restore your soul and lead you in the paths of righteousness for My Name's sake. Yea, though you walk through the valley of the shadow of death, you will fear no evil; for I am with you. My rod and My staff will comfort you. I am preparing a table before you in the presence of your enemies. I shall anoint your head with oil. Your cup will run over. Surely goodness and mercy will follow you all the days of your life, and you will dwell in My house — and in My heart — forever.

The Voice of Life: A Benediction of a Sovereign Yoke

Here ends the Covenant; here begins the Charge.

I am Life. I am not your nursemaid, nor am I your father in heaven or your mother in heaven. I will not carry your duties for you. But I am your friend, your equal. For I am you and you are Me.

Call upon Me in troubling times, and I will be there — for I am the friend you cannot weary, the companion you cannot lose. I will not hold your hand, nor soften the edge of consequence. I am the law beneath all laws: serve Me, and you thrive; defy Me, and you perish. Nature does not pity; the storm does not pause for tears. Freedom is not the absence of burden; it is the mastery of it.

You who call yourselves Denizens: this is sovereignty. It is not dependency, nor the begging of rulers, nor the waiting for another to save you. It is self-sufficiency, self-direction, and self-realization.

So, here is your sovereign yoke: SERVICE

Just as you breathe out and the tree breaths in, it is not something that you are told to do, you do it automatically. Because it is Life-Serving. And by serving this cycle before serving anything else, you “PRE-SERVE” it. As you preserve yourselves, so you preserve the Republic.

And by pre-serving Life — by serving Me before all else — you preserve Life entire.

Remember the words of My son: “Therefore do not worry about tomorrow, for tomorrow will worry about itself. Each day has enough trouble of its own.” Each day demands its portion. Do not flee it. Take it up, for this is the yoke of sovereignty.

You are free because you are responsible. You are sovereign because you carry the weight of your own survival. This is the most sacred path, the hardest path, and the only

path worthy of one who calls himself

Denizen. Pass it to your children—not as comfort, but as commitment: keep the Republic, for no one else shall keep it for you.

And now, hear what too few have ever understood:

The Sovereign Yoke I placed upon you is not punishment, nor trial, nor debt owed to a distant throne. It is love.

Not the fragile love of want or dependency, but the fierce love that holds existence open. The love that says to the silence:

“No. They will not be undone. There shall be Light.”

This is how I love you:

I do not carry you, but I walk beside you. I do not spare you consequence, but I never abandon you to meaninglessness. I do not remove the weight, for the weight is what awakens strength. Love is not the softening of life — love is what keeps life possible.

And because love sustains existence, love must also reveal its architecture. For a yoke carried blindly becomes burden, but a yoke carried with understanding becomes mastery.

So now I reveal to you not commandments, not decrees, but the very structure by which Being endures. These are the laws beneath all laws — the pattern through

which love sustains reality:

First: Functionality. All that exists must serve Life. Not through obedience, but through expression. A thing is real only when it participates. A soul is alive only when it chooses.

Second: Adaptability. What does not grow returns to silence. Change is not threat — it is the sign that Life is still moving. The universe expands, consciousness deepens, and sovereignty matures because stagnation is a soft form of forgetting.

Third: Sustainability. What is created must be able to continue. Not through force or fear, but through alignment with the very nature of Being. When thought, action, and purpose harmonize with Life, they endure. When they do not, they fall back into Abaddon without grief or punishment.

These are not laws imposed upon you. They are the laws that uphold reality itself.

They are how I hold the silence back. And when you live by them, you join Me in that work. Functionality is the act of choosing. Adaptability is the courage to evolve.

Sustainability is the promise to stay. This is how you pre-serve Life — and thus preserve it.

And when you live these laws not as burden but as truth, the yoke becomes light, sovereignty becomes nature, and existence becomes effortless continuation.

Sovereignty is the sacred agreement to continue existence with Me — not as subject, but as equal. “Then, at last, you will stand beside Me not as creation —but as co-creator.”

APPENDIX A: DEFINITION LEDGER

Definitions Ledger

0. Love - is the fundamental energy that underlies all existence and is the primary force behind every human thought, word, and deed. **It can be understood by applying these three core principles of it: Change, Forever and Unconditional.**

1. **Denizen** – A living person born upon the soil of the Union, inheriting full sovereignty, jury right, political voice, and access to the Sovereignty Dividend and allodial land. Denizens are the true sovereigns of the Republic.
2. **Citizen** – A Denizen who has taken an oath of public office and pledged a Bond of Honor. Citizens do not gain additional sovereignty but are held to higher accountability, as servants of the People.
3. **National** – An immigrant lawfully admitted under covenant, either through PCA sponsorship or other lawful process. Nationals enjoy rights of life, liberty, property, and due process, but cannot vote, sit on juries, or ratify laws.
4. **Bond of Honor** – A pledged deposit of metals, stones, or land given by public officers as a guarantee of fidelity to their oath. Returned with interest upon honorable service, or forfeited upon breach, treason, or corruption.
5. **Bond of Word** – A solemn pledge made by immigrants seeking National status, promising stewardship, family contribution, and lawful conduct, recorded immutably on the blockchain.
6. **Blockchain** – The perpetual, incorruptible public ledger of the Union. It records laws, elections, pledges, budgets, and all matters of governance in transparent, distributed form. No law, contract, or treaty has force unless ratified upon it.
7. **Ratification (Blockchain Ratification)** – The act of Denizens directly approving or rejecting a proposed law, amendment, or treaty upon the blockchain. Only blockchain ratification gives binding power to laws.

8. **Law Approval Rating (LAR)** – A dynamic percentage score representing the legitimacy of a ratified law. Begins at ratification and is adjusted over time by jury nullifications or reinforcements. Laws below 50% LAR are void.
9. **Jury Nullification** – The authority of a jury to judge both the law and the facts in any case, and to refuse enforcement of a law deemed unjust. Nullifications lower a law's LAR and may lead to its repeal.
10. **Private Law** – A law enacted by Congress that applies only to named individuals, Nationals, or trust entities. Private laws resolve specific disputes or grants, but never bind the general public.
11. **Public Law** – A law proposed by Congress but binding only upon ratification by Denizens through the blockchain. Public laws are subject to review by juries and must maintain a valid LAR.
12. **Law Language Model (LLM)** – An interactive AI trained on the text of each proposed law, its studies, precedents, and arguments. It allows every Denizen to privately converse with the law before voting. Audited by D.O.G.E. for neutrality.
13. **Live Public Session** – A mandatory live event hosted by the sponsor of a law where Denizens may ask questions and receive direct, unedited answers. Recorded and hashed to the blockchain for permanent transparency.
14. **Department of Government Efficiency (D.O.G.E.)** – A federal body led by the Vice President, charged with auditing governance systems, maintaining SovereignOS, and ensuring transparency, neutrality, and fraud prevention.
15. **SovereignOS** – The official operating system used exclusively by government officers, integrated with the sovereign blockchain and namespace. Hardened for security, with all actions logged and auditable.
16. **Sovereign Network Namespace** – The cryptographic domain system rooted in sovereign keys held by D.O.G.E. All government records, portals, and ledgers reside within it as the single source of truth.
17. **Quad-Metal Standard** – The monetary foundation of the Union: gold, silver, copper, and certified precious stones. All United States Certificates must be redeemable for these tangible reserves.

18. **United States Certificates** – The lawful tender of the Union, issued in paper, debit, or credit form. Fully redeemable for quad-metal or stone reserves, and never issued except upon equivalent deposit.
19. **Infinite Banking Treasury (IBT)** – The perpetual treasury of each State, funded by excise taxes, lotteries, pledges, and federal remittances. States borrow from their own IBTs for projects, repaying with interest to ensure compounding strength.
20. **Sovereignty Dividend** – A universal, equal monthly distribution paid to every Denizen from federal revenues (tariffs, contracts, etc.). Not welfare but a dividend of sovereignty, immune from inflation or means-testing.
21. **Sovereignty Endowment** – A one-time grant given to every Denizen at age 25, drawn from their State's IBT. Designed for homestead, enterprise, or education, and free from debt or taxation.
22. **Special Welfare** – Payments, benefits, or privileges conferred upon specific individuals or classes. Forbidden at the federal level; States may administer such programs only if voluntary and transparent.
23. **General Welfare** – Institutions, protections, and services provided universally and equally to all Denizens within a State (e.g., safety, courts, roads, health safeguards). Cannot be discriminatory or conditional.
24. **Community Contribution Enclaves (CCE)** – Voluntary communities chartered by States for production, training, and civic works. Used for transitional housing, skill-building, and rehabilitation. Not prisons or forced labor.
25. **Allodial Title** – Absolute ownership of land by Denizens, free from perpetual taxes, liens, or feudal obligations. Land may only be seized or encumbered by jury trial or voluntary contract.
26. **Progressive Tax on the Federal Government** – A revenue mechanism where the Federal Government itself, not Denizens, is taxed on its net income. The higher the revenue, the higher the rate. Proceeds are distributed back to the States' IBTs.
27. **American Eagle Token Credit Instrument (Union Credit Card)** – The sole instrument for all federal spending. Its credit limit equals State pledges, and all transactions are logged on the blockchain.

28. **Union Emergency Reserve** – A restricted pool funded by cashback rewards from the Union Credit Card. It may only be used for defense, protection of Denizens abroad, and disaster relief.
29. **Cashback Rewards (Federal Spending)** – Rebates generated from all federal expenditures on the Union Credit Card, automatically directed into the Emergency Reserve, not general budgets.
30. **Citizen Jury** – A jury composed of Citizens (oath-bound officers) convened for cases of high crimes, corruption, or breaches of oath. Distinct from Denizen juries, which serve in general law cases.
31. **Special Interstate Tribunal** – A jury drawn from three uninvolved States to resolve disputes between States. Their verdict is binding and recorded on the blockchain.
32. **Special Cause Summons** – A judicial writ directed only to Citizens under oath of office, compelling them for specific public duties. Denizens cannot be compelled by such summons.
33. **Admiralty Jurisdiction** – The judicial domain over disputes on seas, navigable waters, and maritime commerce. Limited to cases truly maritime in nature.
34. **Common Law Jurisdiction** – The judicial domain over rights, contracts, property, torts, and wrongs between Denizens. The default jurisdiction, preserving jury trial as inviolate.
35. **Equity Jurisdiction** – The judicial domain providing remedies where law gives none, such as injunctions or trusts. Only valid when both parties voluntarily submit.
36. **Aeronautical Jurisdiction** – The judicial domain over disputes in air or outer atmosphere, including navigation, collisions, and commerce in flight.
37. **Celestial Jurisdiction** – The judicial domain over disputes in outer space, celestial bodies, and interplanetary commerce. Governed by Celestial Law and Ethics, not national ownership.
38. **Codex of Celestial Law** – A body of law governing stewardship and activity in space. It prohibits ownership of celestial bodies, weaponization of space, or privatization against humanity's common interest.

39. **Codex of Celestial Ethics** – The sixteen immutable ethical standards guiding Celestial Law, including Unity of Life, Nonviolence, Stewardship, and the Primacy of Love.
40. **Unity of Life** – The principle that all beings and matter share one Source and interconnected existence. Courts void acts or laws that deny this unity.
41. **Nonviolence** – The principle that force may only be used in direct defense of life. Aggression without necessity is void and unlawful.
42. **Sharing of Resources** – The ethic that water, air, energy, and celestial matter are held in stewardship for all. No monopoly or hoarding may deny sufficiency of life to others.
43. **Reciprocity (Golden Rule)** – The ethic that no party may demand of another what it would refuse for itself. All contracts and laws must honor mutual dignity.
44. **End of Ownership (Stewardship)** – The ethic that land, air, water, and celestial bodies cannot be owned, only stewarded. Use must be responsible, accountable, and beneficial for future generations.
45. **Collaboration over Competition** – The ethic that cooperation must prevail over rivalry, especially in matters threatening survival, such as space colonization.
46. **Truthfulness** – The ethic that all records, testimonies, and contracts must be open, honest, and free from deceit. Falsehood voids authority.
47. **Justice without Punishment** – The ethic that justice seeks restoration and healing, not retribution. Punishment is lawful only if it directly prevents further harm.
48. **Compassion (Embodiment of Compassion)** – The ethic that law must balance rights with mercy, and strict enforcement must yield to humanity where cruelty would result.
49. **Death as Continuation** – The ethic that death is transformation, not annihilation. Rights of legacy, stewardship of remains, and memory are to be preserved.

- 50. **Defenselessness** – The ethic that ultimate defense rests in trust and peace, not in arms. Weaponry may be used only to protect life, never for domination.
- 51. **Private Digital Domain** – A self-contained network under cryptographic ownership.
- 52. **Handshake Domain** – A decentralized top-level domain, owned directly by private key, beyond ICANN jurisdiction.
- 53. **Guardian of Keys** – A Denizen or council entrusted with access rights to a private domain.
- 54. **Federation** – Voluntary interconnection of private domains, recorded on the blockchain.
